# OAKLAND MEN DROWN

## 69 AND 64 BOLDLY ELOPE

Civil War Veteran, Third Time Wed, Fools Plotting 'Young People'

Shy Bride and Soldier Groom Go on Their Honeymoon in South

A motherly little woman with hair as white as snow and a happy flush on her frail worn features, appeared at the Cupid counter at the county clerk's office this morning leaning on the arm of a gray-haired man who wore the uniform of a Grand Army veteran.

"A marriage license, if you please," said the man with military precision, and the little old lady added shyly: "We want to get ahead of our friends; they are all planning to make such a big fuss. We are going to fool the young people, aren't we, William?" Gravely the clerk made out a marriage license for George Washington McCall, 69, past commander of Appomattox Post, G. A. R., and Mrs. Mary Frances McNeill, a widow, aged 64.

CLINGS TO LOVER.

To the reporter who sought her views on matrimony, early marriages and kindred subjects, the future Mrs. Van Deventer only laughed shyly and clung to the arm of her lover.

"You should ask William about those things. This is his third marriage, but I am going to see to it that there never is another."

"Now, mother," expostulated the veteran, "you must not give me away so soon. Remember, this is to be an arrangement and I don't want the newspaper to print anything for a few days at least."

"All right, William," said Mrs. McNeill, meekly: "I know I shouldn't talk so, but it does seem so funny that all the young people will be fooled. You know there was a crowd out to the house last night from Berkeley and they intended to throw rice and old shoes at us, but now we've gone and fooled them. The young folks aren't as smart as they think they are."

HONEYMOON IN SOUTH.

"We're going down to Los Angeles for a little while," she continued. "We heard so much about the race from all the veterans here down to the newest. Do you know that there are 104 army people who were married during that convention, or who were there on their honeymoon? All right, William; I'm coming; I won't talk any more."

The marriage was performed at noon, and Mr. and Mrs. Van Deventer left for the south on a six-week honeymoon. On their return they will take up their residence on Bay View avenue in Elmhurst. Commander Van Deventer is a well-known veteran. He fought through the Civil War with the Second Michigan Volunteer Infantry.

Sensation Expected In Murder Inquiry

Four Persons Slain and Bodies Burned on Illinois Farm.

QUINCY, Ill., Sept. 30.—Early developments of a sensational nature are promised by the officers who are investigating the quadruple murder on the Pfanschmidt farm near here. The victims were Charles Pfanschmidt, a prominent farmer, his wife, their daughter Blanche, aged 16, and Miss Emma Kaempf, aged 20, the school teacher of the district, who resided at the Pfanschmidt house.

The bodies were mutilated, as well as burned, and in the skulls of the two young women were large holes evidently made with a blunt instrument. The bodies of Mr. and Mrs. Pfanschmidt were headless when found. That Pfanschmidt was the object of the murderer's assault is the theory of the officers.

It is not believed robbery was the motive, for the family kept little money in the house. Bloodhounds were brought to Quincy from Springfield today and will remain until the investigation is completed.

## ROCK BOAT FALL IN BAY

Harry McKellar and Frank Murray Meet Death at End of Pleasure Cruise

Friendly Wrestling Bout on Yawl Has Fatal Result Last Night

ROCKING the boat proved fatal for two Oakland men at 7 p. m. yesterday, when Harry McKellar of 902 Myrtle street and Frank Murray of 1086 Seventh street were drowned.

With McKellar and Murray was Irving Blackwell of 4069 Mara street, Fruitvale. The three were returning from a pleasure cruise on the bay when, near the Key Route mole, the dead men clinched in a friendly wrestling bout.

Blackwell cried out a warning, as the bay had become choppy and the yawl was being managed with difficulty. McKellar and Murray either did not hear the warning or disregarded it, and a sudden swell caused the boat to roll.

Murray and McKellar were thrown into the bay and the wrestling match became a struggle for life. McKellar was an expert swimmer and Blackwell believed he would be able to save himself and Murray. He threw a line, but was unable to direct it owing to darkness.

Blackwell heard the cries of the drowning men for only a minute. Then their shouts died away and Blackwell, believing them drowned, made for the Key Route pier and reported the accident.

He cut loose a small rowboat near the scene of the accident, thinking that the men would have a chance to save themselves if they had not gone to the bottom at once.

McKellar, 28, 21 years old, a Shiner and leaves a wife and six-months-old baby. He was employed at the Oakland Iron Works. His father lives in Alameda.

Murray was 27 years old and worked for the United Iron Works and was unmarried. Both men are well-known in fraternal circles in Oakland.

## TAFT MEN MAKE LAST STAND FOR RIGHTS

Petition for Writ, Asked Against the Bull Moose.

SAN FRANCISCO, Sept. 30.—A petition for a writ of mandamus was filed in the Supreme court this afternoon by the Taft Republican league, asking that Secretary of State Jordan be compelled to place the names of Taft electors on the ballot of the state election in November instead of the thirteen electors named at the Republican state convention in Sacramento. The suit is sought in an effort to offset a ruling of Attorney-General Webb that only one list of electors be on the ballot and that list at present includes the Bull Moose electors.

Following a meeting of the committee, held here this morning Chairman S. Fred Hogue announced that all arrangements had been made for the filing of the petition, and Attorneys Clayburg and Rose have been retained to conduct the proceedings before the court. It is believed that the matter will be disposed of promptly, owing to the short time left in which the sample ballot must be prepared and mailed to the voters.

It looks like finality.

The effect of the final one on the part of the Taft Republicans is to get their choice for presidential electors on the ballot and give the recognized members of the party an opportunity to cast a ballot for President Taft.

At the matter stands under Attorney-General Webb's recent decision,

REVERLY, Mass., Sept. 30.—Having made the acquaintance of the Democratic Presidential candidate, President Taft now expects to shake hands and exchange political gossip with Governor Wilson of Indiana, Democratic nominee for vice-president. According to the announcement today the meeting will take place in the same hotel in Boston where the President met Governor Wilson several days ago.

Both the President and Governor Marshall shall be guests at a Scottish Rite banquet.

## Hetch-Hetchy Hearing Extended One Week

Acting Secretary of Interior Adams Sets Date Ahead.

WASHINGTON, Sept. 30.—Acting Secretary of the Interior Adams has extended for one week, from October 5, the hearings on the Hetch Hetchy project in California for a great reservoir for San Francisco's water supply.

## Mexican Troops Are Barred From Texas

AUSTIN, Texas, Sept. 30.—Governor Colquitt has withdrawn permission for Mexican federal troops to march from Matamoros, Texas, to another point on the border over Texas soil. He announced today he does not care to take the risk.

J. R. Hayden, industrial agent of the Santa Fe line for this district, admitted today that the railroad company had been negotiating with Edson F. Adams, the banker, for a piece of property in Oaklawn, for the exact location of the property. Hayden said that it had not yet been consummated, although negotiations have been pending for some time.

"The piece of property in question is a small one," said Hayden, "and its purchase has no significance one way or the other. It is of interest only to the Santa Fe company, which wants the property for a special purpose."

Asked as to whether that "special purpose" signifies any new move on the part of the railroad in increasing its terminal facilities, and as to the exact location of the property, Hayden said that it had no bearing on any great project and that he was not in a position to divulge the location of the property in question.

It has been rumored on the street that the deal in question relates to some of the waterfront property owned by Adams.

Turkey to Put Down Strife in the Balkans

ATHENS, Greece, Sept. 30.—Turkey is making elaborate military preparations to meet any hostile demonstrations in the Balkans, according to a semi-official statement published here today. The Turkish troops sent from Thrace to Albania some time ago have now been ordered to return to their stations so that now the only troops at present detached from their

units are those concentrated in Saloniki along the Dardanelles and at Smyrna, in consequence of the war with Italy.

LONDON, Sept. 30.—A convention between Greece, Montenegro, Serbia and Bulgaria for joint action against Turkey according to the Sofia correspondent of the Times, is regarded as a fait accompli.

## Newspaper Man Dies After Being Hit by Auto

SACRAMENTO, Sept. 30.—Having secured a total of 32,611 signatures on the petition invoking the initiative for the abolition of the poll tax, this measure, according to a report issued today from the office of the secretary of state is now assured of being submitted to the people in 1914 or at a special election subsequent to that of next November.

## Senator Denies Intention to Recommend Intervention

EL PASO, Sept. 30.—Senator A. B. Fall denied today that he and Senator William A. Smith of the special Senate committee investigating conditions in Mexico had decided to recommend intervention. He added that no preliminary report had or would be made until the conclusion of the investigation. Senator Smith is in California and Senator Fall here continuing the probe.

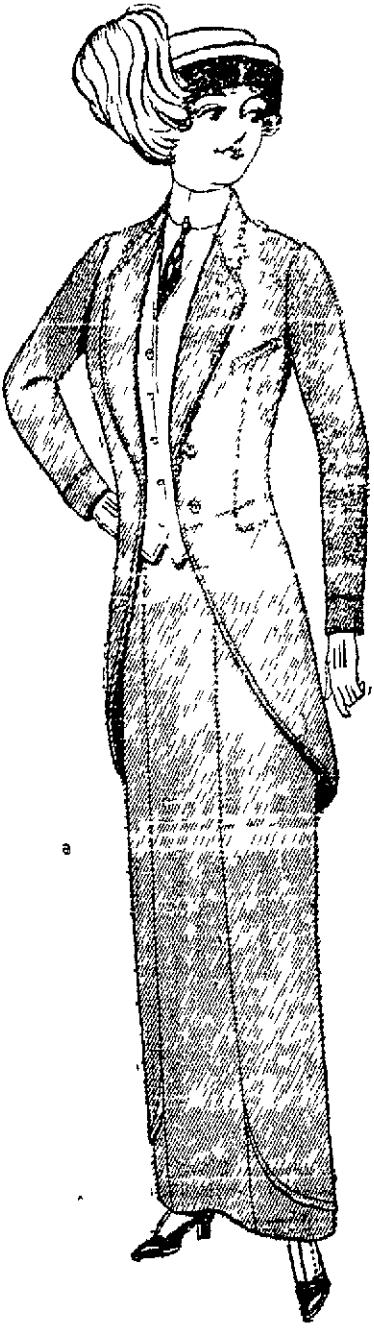

## Korean Dispute Leads to Cabinet Crisis in Japan

LONDON, Sept. 30.—A cabinet crisis looms and that he is supported by Count Terauchi, resident general of Korea. Prince Tamagata, president of the privy council, is refusing to yield to the argument that the proposal is incompatible with the military program of retrenchment.

## DIRECTOR OF SAN DIEGO FAIR BRINGS INVITATION

Frank P. Allen Jr. Is the Guest of Oakland Men at Luncheon

Official invitation to Alameda county to arrange an elaborate exhibit of products at the Panama-California Exposition in San Diego in 1915 was extended by Frank P. Allen Jr., director-general of the fair, to the board of supervisors and the Alameda County Exposition Committee at a luncheon in the Forum today.

The advantages to be gained by proper representation, together with other sections of the state, were urged by Director General Allen, and the matter was taken under advisement by the officials.

"This is to be a San Diego and California exposition," said Allen. "We are asking all the counties of the state to be well represented and have met with hearty co-operation in nearly all sections."

**PLAN JOINT EXHIBIT.**

"The seven counties of Southern California have planned a joint exhibit which will consist of five acres of land devoted to citrus fruit growing and the same area to deciduous fruits and other products. The Sacramento valley counties nine of them, pledged themselves at a meeting Saturday to prepare an exhibition under the general direction of Commissioner J. Peterson north of the border to the state boundary have promised to come into line and now we are asking Alameda and the San Joaquin valley regions to make a similar offer of their resources. Members of your commission have already visited San Diego to look over the ground and seem to have been favorably impressed."

**EXPECT VISITORS.**

"We expect to receive visits from 75 per cent of the Easterners who come to the world's fair in San Francisco and no county of the state can afford to do without representation. The construction work on the San Diego exposition is one-third completed. San Diego county is spending \$600,000 of its own money on the exposition. Two million trees and shrubs are being cultivated

to make the exposition grounds located in a city park, a tropical wonderland.

"The fair will be ready January 1915. It will open one year later after the first year's exhibits have had a chance to develop properly, and will remain open all year.

"Exhibit sites are furnished free. We have reserved one for Alameda county. Allen was director of works of the Alaska-Yukon exposition, which was ready on time.

## ROOSEVELT AND MORGAN TO TAKE WITNESS STAND

Will Tell What They Know of Republican Campaign Funds

(Continued From Page 1)

the acceptance of \$100,000 from the Standard Oil interests in 1904 and in a further demand for \$150,000 from the same source.

Senators Clapp, Oliver, Payne and Pomerene were present when the committee went into session. Bliss was the first witness. He said he was an executor of his father's estate and had sole custody of his father's papers.

"Have you found any papers bearing on the campaign funds handled by your father?" asked Chairman Clapp.

Bliss placed in evidence a report from the auditor who examined his father's accounts when he resigned as treasurer of the Republican committee. He said the records did not show any contribution by John D. Archbold of the Standard Oil company.

Members of the committee examined the records. No names of contributors to the 1904 campaign fund appeared in the records. Bliss was asked to read his father's letter of resignation to Harry S. New.

The letter set forth that the late Bliss had held as confidential the names of contributors and the amount of their contributions in the last four presidential campaigns in which I have acted as chairman.

"I have persistently refused to make this report public," the letter read. "Therefore, I regard the relations of campaign contributions to party committees as confidential. I believe the right to refuse to make public these contributions is as sacred as the right of a man to cast a secret ballot in the election."

The letter added that the Republican committee's receipts in 1904 had been "a trifle below \$3,000,000"; in 1906 \$3,500,000, and in 1912 \$1,600,000.

**INTIMATE LETTERS.**

The witness said he had discovered three other letters of a "personal and more or less intimate nature." These he handed to Chairman Clapp. One was from President Roosevelt, another from Wm. H. Taft.

The committee members read the letters privately. Senator Clapp had them placed in the record as exhibits. They were not read aloud and their contents were not divulged at the election.

Bliss was told he had no other documents and no recollection of any conversations with his father which would throw any light on the subjects under investigation.

Later, however, the contents of two of the letters became known. That from Secretary Taft, written May 6, 1904, urged the late Mr. Bliss to take the chairmanship, saying President Roosevelt was "most anxious for it" and adding that as chairman Mr. Bliss would "secure the confidence of those whom contributions may be expected."

The letter from President Roosevelt dated the same, also urged him to take this place.

Under examination by Senator Payne the witness said that his father had told him he allowed the books of the treasurer's office of the Republican national committee to be destroyed because he, the elder Bliss, believed the record useless. They contained, he said, the names and amounts from various contributors.

The witness did not know what had happened to the papers.

The disappearance of the two young men is considered a problem with peculiar features by the police captain of Inspector Lou Agnew detailed detective on the case today, as the facts learned so far are of an exceedingly meager nature.

**FOUR NEAR DEATH.**

SAN FRANCISCO, Sept. 30.—Four men, well known in San Francisco sporting circles, nearly lost their lives in the bay off San Quentin point yesterday afternoon when a large power launch sank after striking a submerged rock. The victims of the accident were Tom Corbett, the bookmaker, Dr. Arthur Nelson, Al de Witt and Louis Anthony.

Leaving Sausalito early in Anthony's launch, the party cruised about the bay. In the afternoon Tom Corbett relieved Anthony at the wheel, and a "former was in the boat when it sank."

Two miles off San Quentin point the launch was ripped open when it struck a rock beneath the surface of the water. Immediately the craft filled and its occupants were thrown into the water. Fishermen who were nearby heard the cries of the four men and they were soon rescued.

It is possible Anthony's launch may have raised the launch was traveling at its highest speed when it struck the rock.

## BACCUS SHOCKED BY DANCING AT DIMOND

Commissioner Agrees With Women That There It Is Immoral

Immoral dances were the subject of a complaint by Mrs. H. Holmes, as leader of a large number of women of Upper Fruitvale who appeared before the city council this morning to protest against the use of a dance platform near Sulphur in the old park in Dimond canyon. On the recommendation of Commissioner William J. Baccus the council decided to have the park carefully policed in future on Sundays to prevent the morals of the community and the city ordinances being violated.

"Dimond canyon has become a resort for rough and disorderly people," said Mrs. Holmes. "Young people flock there on Sundays unchaperoned and they dance tough dances on the old platform there. It ought to be stopped."

That's a fact," commented Councilman Baccus. "I passed there last Sunday and the dancing was enough to shock me. I ought to be stopped."

The council instructed Chief Walter J. Petersen to have one of his blue-coated guardians of morals on the job next Sunday to censor all improper dancing. It was decided to request F. M. Smith, who owns the Dimond property, to have the platform torn down. The city has an interest in the land, as the hope has been often expressed that it may be purchased for a public park.

**MUST CLEAN PROPERTY.**

An important ordinance was passed to print this morning providing that property must be kept neat and clean and without weeds. The ordinance is an attempt to create a "spotless town" and failure to comply with the ordinance on the part of the property owner after being given notice gives the city the right to have the street frontage and lot cleared, the expense to stand as a lien against the property. The ordinance has been passed by the city council.

Chief of Police Walter J. Petersen recommended that the license be removed. He stated that he had investigated the grounds of the protest and had found them satisfactory.

Commissioner Harry Anderson and Commissioner W. J. Baccus asked that the matter go over, as the place has had a good reputation up to this time. The matter will be reconsidered tomorrow.

**TURNER WOULD SWAP JOBS.**

Commissioner of Public Health and Safety Fred C. Turner again came forward this morning with a proposition to trade jobs with any other commissioner in council. Turner has asked for this opportunity from month to month since he has had the care of the morals and welfare of the city on his shoulders. This morning he came one vote nearer his heart's desire.

In the past Turner has had only his own vote toward an action of committee transferring him to another department. This morning he gained the opening of the offices at 8:30 a.m. and moved an amendment to that effect. Mayor Mott voted with him, but Forrest, Anderson and Baccus thought 9 o'clock early enough.

**HELP FOR CELEBRATION.**

The council appropriated \$149 to aid in the Columbus day celebration to be held October 12. Hugh Hogan,

representing the committee, asked for \$2,000, the sum donated last year toward the celebration. The new method of dispensing this fund determined recently of not making appropriation excepting on recommendation of the head of the Chamber of Commerce and the Merchants' Exchange was followed out, and these organizations recommended the smaller appropriation.

Last Saturday night the union bar-

## DE LUXE TRAIN OVER SANTA FE

Special to Run Every Week During the Winter to Chicago.

The 1912-13 season De Luxe extra fare train will begin running over the Santa Fe, between California and Chicago, December 17, when the first train will leave Los Angeles eastbound. December 31, the second train is scheduled to leave and through January, February and March it will depart from Los Angeles every Tuesday. The extra-fare train will run weekly from Chicago to California. It consists of buffet, library and baggage cars, two seven-compartment and drawing room cars, two seven-drawing room cars, 10-section observation car and dining car.

The train is exclusively first-class and carries limited number of passengers. It marks a notable advance in trans-continental service. First time is made by powerful engines, perfect roadbed and a minimum of stops. There are many features for the comfort and convenience of passengers.

LITTLERS MADE PUBLIC.

While the committee at first seemed confused as to the disposition of the three letters to Bliss, put in evidence, the substantial portions of them were finally made public. Two were of no account from McHarg's campaign, but the third, dated March 26, 1906, written by President Roosevelt from the White House to Bliss in New York, made specific denial that he had ever been influenced for or against any persons or interests as a result of contributions to the 1904 campaign.

"It is not only that there has come to me no suggestion that the giving of contributions entitled any person to any consideration beyond his fellows," wrote President Roosevelt. "In the latter, 'but it is furthermore true that on a number of occasions (as for instance in connection with the tobacco interests and in connection with a wealthy man who wished to be considered for the position of Minister to Belgium) contributions were declined, when it was found either for or even the government was about to take some action which affected the donor or donors; while as soon as it was shown that certain big financiers as well as influential politicians like Mr. Odger had urged the appointment of James J. Hyde as ambassador to France, Mr. Corbett and I believe you also insisted strongly and the financiers and the donors accepted my explanation of why it would be impossible to put so young and untried a man in any such position, and abandoned all efforts to press him."

The letter from President Roosevelt dated the same, also urged him to take this place.

Under examination by Senator Payne the witness said that his father had told him he allowed the books of the treasurer's office of the Republican national committee to be destroyed because he, the elder Bliss, believed the record useless. They contained, he said, the names and amounts from various contributors.

The witness did not know what had happened to the papers.

The witness could not remember having talked with his father about the much discussed \$100,000 Standard Oil contribution. Bliss said that he, since his father's death, had destroyed a great many of the papers left by the older Bliss.

"I know of nothing that I destroyed that could in any way assist this committee," he declared emphatically. A vigorous cross-examination by Senator Pomerene failed to shake his statement.

Bliss then was excused and Wm. H. Libby of New York, foreign representative of the Standard Oil company, was sworn in.

"I am naked. If he had anything to do with advising the committee about legislative matters, etc., and in view of the course we have pursued throughout in all corporation matters, ought to be wholly unnecessary so much as to allude to any other," he said.

That any contribution from any source had anything to do with advising the committee about legislative matters, etc., and in view of the course we have pursued throughout in all corporation matters, ought to be wholly unnecessary so much as to allude to any other," he said.

"Indeed, considering the action taken by the administration in the tobacco trust against railroad companies in the matter of rebates, etc., and in view of the course we have pursued throughout in all corporation matters, ought to be wholly unnecessary so much as to allude to any other," he said.

"This is an exceptional value even for a special. You get our unqualified

## SOUTHERN MAN IS BOUND AND ROBBED

Los Angeles Foreman Dragged Into Vacant Hotel Room and Gagged.

SAN FRANCISCO, Sept. 29.—Returning to his hotel at 187 Third street shortly before 6 o'clock this morning, Charles Berger, a concrete construction foreman from Los Angeles, was jumped upon by two men in the hallway, dragged into a vacant room, bound and gagged and relieved of \$20. Berger was found in a semi-conscious condition by Frank Gilley, night clerk, who was attracted by the man's groans. He released him from his predicament and notified the police.

L. W. Fields, who arrived in the city on the steamer Governor from Los Angeles, was relieved of his purse containing \$10 in Pacific street last night.

William H. Newland of 1334 Stockton street fell in with two strange men on the Barbary Coast last night, met two women and lost \$20, which he put on a table to buy drinks. He turned his back for a minute and the money and strangers went together.

## 'WARRANTS' FOR BUSINESS MEN

About One Hundred and Fifty Served; Will Have "Hearing" Tomorrow.

Warrants for arrest were served today on many of Oakland's prominent citizens. About one hundred and fifty well-known business men dropped their work and greeted a stern-faced officer of the law. The warrants came as a big surprise in most cases, although a wholesale pinching has been rumored for some time. Every man served took the arrest calmly and promised to appear at the hearing at 12:15 tomorrow at the Forum Cafe.

The arrest was a stunt on the part of the Oakland Advertising Association to attract attention to its special meeting.

On the face of the warrants printed in red letters were the words: "This is a warrant to arrest you attention. On the inside the program was printed in red ink.

For tomorrow noon will be unusually strong. W. V. Cribbins, chairman of the day, will talk about "Getting the Cost of Advertising." Henry L. Laffer of Wickham-Havens, Incorporated, is to speak on "The Most Famous Stories of Advertising Ever Published." This talk is illustrated by a set of reproductions, which have probably been seen by less than a dozen men in the West. The manager of the "Office 66" company is also to speak.

The last few luncheons given by the Oakland Ad Club have proved popular with the business men and tomorrow's attendance will be large. The local branch of the National Association is shaping its work and in the course of the fall all the biggest features in the educational field.

**MORE ARRESTS BY STATE MEDICAL BOARD**

In the crusade against the illicit practice of medicine without due qualifications, agents of the State Board of Medical Examiners caused several arrests. Oakland, yesterday, T. Foo Yuen, a Chinese herb doctor, with offices at 2805 Broadway, was arrested on a warrant.

"No man who can be elected President can hurt the fundamental principle upon which prosperity is based, or tinker with our money; nor can he make any radical changes in the tariff."

## GRAMMAR SCHOOL GIRLS DISAPPEAR MYSTERIOUSLY

TWO MISSING OAKLAND GIRLS: MISS RUTH CUNNINGHAM, ON THE LEFT, AND MISS MARTHA ELLING.

Search is being made by the police and by a posse of citizens for two grammar-school girls who have mysteriously disappeared from their homes, and who are believed to have been made victims of designing persons. The two girls are Ruth Cunningham, aged 13 years, of 4017 East Seventeenth street, and Martha Elling, aged 14 years, 1422 Twenty-ninth avenue.

That the two girls have been hidden by two young men with whom they were seen last Friday is the opinion of the detectives who have been at work upon the strange disappearance. Inspector Thomas Wood, who spent Sunday investigating the disappearance of the two girls, discovered that they had been seen with two young men on motorcycles going to San Leandro Friday afternoon.

The police are seeking the two young men, as they believe they can throw light upon the strange disappearance of the two girls. The parents scour the theory of the police that their daughters are staying away from home of their own accord, and declare that they must have met with some mishap or are being detained as prisoners somewhere.

### WENT OUT SEVERAL TIMES.

The girls had been out riding several times with two young men, one known as "Tom," and the other an employee of a local cyclery. Inspector Thomas Wood is at work on the case today.

"There is little interest in Eastern financial circles over the presidential election," he said.

**OAKLAND BETTER KNOWN.**

"Another thing which impressed me deeply was the larger acquaintance with Oakland shown by financial authorities in the East, who watch the bank clearings, building growth and general conditions in all the cities of the country.

Oakland is not only becoming better known, but is very favorably known among the financiers of the East.

Martha Elling—Five feet, three inches, dark complexion, 127 pounds, dark eyes and dark hair; wore red sweater and green skirt.

John Cunningham—Five feet, 6 inches, light complexion, 140 pounds, blue eyes and light brown curly hair; wore red skirt and red and white blouse with red collar and cuffs and a large red belt.

John Cunningham, father of Ruth, declared this morning that he was convinced that his daughter must have been drugged and taken to some place against her will.

The mother of the girl is frantic about the disappearance of her daughter.

Inspector Thomas Wood was told by several people today that they had seen the two girls Friday afternoon with their motorcycle friends. Miss Fannie Eggers, who knows the girls, told Wood she saw the two, one on a gray and the other on a blue machine. Wood traced the party as far as Hunter's Inn, which they passed on the way to San Leandro.

The two young men were later seen without the girls returning to Oakland.

### LARGE FOR AGE.

The two girls were students of the Melrose grammar school. Both went to their homes Friday at noon for lunch and then left, ostensibly to go to school. The girls are described as unusually large for their age. The description follows:

## ONLY 'CASCARETS' IF CONSTIPATED

## GOODWIN SELLS JINX WITH AUTO

Gently Clean Your Liver and Constipated Bowels While You Sleep.

Take a Cascaret tonight and thoroughly cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick gaseous, disordered stomach, or have backache and feel all worn out.

Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels.

Remember, a Cascaret tonight will strengthen you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

**John F. Merrill Passes Away at His Country Home In Menlo Park.**

SAN FRANCISCO, Sept. 30.—John F. Merrill, one of San Francisco's best known business men, died at his home in Menlo Park yesterday afternoon. Heart failure was given as the cause. He had been in ill health since last December, when he resigned many of his business activities.

He was vice-president of the firm of Holbrook, Merrill & Stetson.

Merrill was born in Hallowell, Me., March 2, 1852. He was the son of Amos Merrill, descendant of an old Huguenot family. He was educated in Boston.

He came to California when a young man and entered the employ of J. D. Lord & Co., at Sacramento. For many years he was an active representative of that firm in Austin, Nev., and later he came to San Francisco, when the firm of Holbrook & Merrill was established. Merrill was actively engaged in business until the close of 1908.

A few years ago Merrill was elected grand commander of the state of California's Masonry, of which secret order he had long been a prominent member. Among the chief charitable interests of Merrill was the Children's Hospital, in which he was assisted by his wife, Mrs. Mary Swope Merrill, who survives him.

Other members of his family are Mrs. Harry Sears Bates, Mrs. Leonard Hammond, Ralph D. Merrill and Charles H. Merrill.

Running up and down stairs, sweeping and bending over making beds will not make a woman healthy or beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by Oregon Drug Co.

New Owner of Car and Four Others Are Hurt In Crash.

LOS ANGELES, Sept. 30.—Nat Goodwin's \$6000 seven-passenger car, an exquisitely upholstered creation, was bought a few days ago for an absurdly low price by C. H. Kistler, a Covina merchant, and yesterday afternoon the new owner invited five of his employees to join him on his first ride to celebrate the bargain.

They had not gone half a mile before the Goodwin jinx manifested itself. The engine went dead squarely on the railroad tracks just as a Pacific Electric trolley came howling along at forty-five miles an hour and the heavy train hit the automobile squarely in the middle, pitching it a hundred feet and leaving it an irreparable wreck.

All the occupants were thrown out on either side of the track. Louis Petchner's leg was broken and he was brought to a city hospital after treatment by the roadside. L. A. Morgan suffered a broken finger. C. J. Peterson was injured internally, and Frank Devilbiss and Charles Durkee were severely cut and bruised. Kistler is uninjured. He says the auto is his first and last.

## NORTHERN SHINGLE OUTPUT RESTRICTED

SEATTLE, Sept. 30.—Shingle manufacturers of Western Washington have played a trump card in the fight being waged for the control of the market by closing about 75 per cent of the mills for an indefinite period. The manufacturers want to demonstrate to the eastern trade that they have the situation well in hand and that any attempt to break the price of shingles will be resisted.

Frank Trall, manager of the Red Cedar Shingle Manufacturers' Association, stated that the mills already closed will reduce the output of shingles at least 75 per cent. By Tuesday Trall said, a large number of other firms will have their plants in such shape that they can also close.

The manufacturers stand ready to resume operations just as soon as the eastern retailers commence buying again.

They declare they will not overstock the market, but the retail trade is to take prices. They figure that a curtailment at this time will clean up stocks at the mills, as well as those in transit, and will put the market in a very strong position.

**COWBOY UNINJURED  
IN FALL OF 40 FEET**

LOS ANGELES, Sept. 30.—In a race with another cowboy, Martin F. Nichols attempted to ride over a railroad bridge in this city last night with the result that he was pitched off and fell forty feet, with the horse tumbling after him.

Nichols was uninjured, but the animal was hurt so seriously that it had to be shot. Nichols was arrested.

**ALL ENGLAND HONORS IDOL**

LONDON, Sept. 30.—Field Marshal Lord Roberts, or "Bobs," hero of Kandahara and idol of the British army, was eighty years old yesterday and the entire Empire stood at salute.

The grass is filled with columns of praise and poems have been written in his honor. Meanwhile, the wonderful little general is still the youngest veteran in the service. He is as busy as ever at his home working at his National Civic League.

RESULTS TELL

## There Can Be No Doubt About the Results in Oakland.

Results tell the tale.

All doubt is removed.

The testimony of an East Oakland citizen can be easily investigated.

What better proof can be had?

George P. Dean, 50, of East Ninth street, East Oakland, Al., says:

"I have been comparatively free from kidney and bladder trouble since I used Doan's Kidney Pills, over two years ago. At present I am in better health than I have been for fifteen years and I give Doan's Kidney Pills the credit. It is a pleasure to confirm all I said in their praise when I publicly endorsed them in August, 1907. For years I had severe pains in my back and other difficulties, caused by disordered kidneys. I was an engineer on the railroad and no doubt the constant jarring brought on my trouble. I often seemed as though my back were going to break and I had a constant desire to pass the kidney secretions. I was not relieved to any extent until I began to use or Doan's Kidney Pills. They brought such good results that I shall always have a good word for them. I think that when a person 80 years of age can tell of so much benefit derived from Doan's Kidney Pills it should be convincing proof of their efficiency."

## Prevention and Cure

A preventive beats a cure any day. It does away with worry and saves work and trouble. The housekeeper's attention is called to a number of things that get rid of dirt but to very few that prevent it.

Now gas, as a means of cooking, is not only the greatest of household conveniences, but it is a great preventive of work. Cooking with gas saves time, notice and a "cold stove" in the same work. It is quick, clean, efficient.

The housekeeper who cooks with gas is spared many petty annoyances. She can have a strong, even heat at a moment's notice and a "cold stove" in the same length of time.

Is "Pacific Service" in your home Mrs. Housekeeper? Are you depriving yourself of a luxury and convenience that can be enjoyed at a small cost?

If your kitchen is not equipped with the facilities for cooking with gas you are causing yourself a lot of needless work.

## PANTAGES TABLOID IS OF PRIZE RING

"The Star Bout" Please Big Audiences at Vaudeville Theater.

Romances of the prize ring are many, but the stage sees little of them. "The Star Bout," at Pantages this week is one of the few that has found its way behind the footlights. Judging from the delight with which five big audiences received its presentation, it may be a success.

"The Star Bout" is a spectacular sort of a thing that is well done and staged with an eye for reality. Scene the last is the ring at the Olympian boxing club, wherein occurs a real bout that brings forth hoots of delight from the assembled multitude—on stage—and shouts of approval from those on the other side of the proscenium arch.

There is a thread of love story running through "The Star Bout." Also are there villainy, conspiracy and a dozen other elements that go to make up the good stuff of vaudeville. If "The Star Bout" don't please you, there's nothing will.

While on the subject of vaudeville sketches, here's a remark that there's a near-zen in "The Finish," another tabloid at Pantages this week. The plot of "The Finish" is filmay thing, but the sketch is bright from curtain to curtain, and there's a deal of pleasure in that sort of thing, you know. Florence Lorraine, who is Hulda Carlson, a Swedish scrub woman, does a capable piece of work and displays talent for things of greater caliber.

"The Finish" is the story of a suspecting wife and relates the manner

she employs to discover her husband in an affair with his pretty stenographer.

**ACCORDED LAURELS.**

To the Lillian Sisters were accorded laurels, when yesterday's audiences went in search of amusement. Girls in their teens, the sisters two display some sort of mastery on violin and piano. They play the above with a lot of vigor and the first act on any bill needs just that and much of it.

For those who care for that mixture of song and fun that has been found for years in quartets of all kinds, "Capital City Four" offers something that is fair, but above the average. The quartet is composed of the usual "comics" and the "straight" who are melodious enough to suit most tastes.

A display of music, agility and daring is made by the Apollo Trio. The "key man" of the outfit is, as per usual, that individual who does most of the hard work and smiles at the while. Provoc adds novelty to the new bill by whistling and mimicing birds while he smokes and otherwise employs his mouth. He does most of his work in his throat and nostrils and proves that he "has nothing concealed about his person" that aids him by fraternizing with the audience.

## PULPITS CLOSED TO 'DRY' LEADER

Eugene Chafin Denied Permission to Speak in Churches.

GRAND RAPIDS, Mich., Sept. 30.—Eugene W. Chafin, Prohibition candidate for President of the United States, yesterday was denied permission to speak from the pulpit of three Methodist churches of this city.

Addressing an audience at the City Rescue Mission late in the afternoon, the candidate assailed the Methodists of this city and denounced Rev. John P. Lathrop, superintendent of Grand Rapids district, as "a whisky presiding elder."

Rev. John W. Sheahan, pastor of one of the Methodist churches, rose in the audience to declare that Chafin was not stating the truth. Several Prohibitionists jumped to their feet and shouted that Grand Rapids had been disgraced by the treatment accorded their candidate.

ENGINEER FALLS INTO STEAMER'S CRANK PIT

SAN PEDRO, Sept. 30.—Peter T. Setto, aged 58 years, first assistant engineer of the Union Oil company's steamer Santa Rita, bound from San Francisco for Balboa, Panama, met a horrible death by falling into the crank pit in the engine room of the steamer. The accident happened about 7 o'clock Saturday night 140 miles north of this port and the Santa Rita put into San Pedro this morning to send the body of the dead engineer ashore. Setto died of his injuries at 4 o'clock.

Setto was cleaning the machinery and accidentally fell into the crank pit. Both legs were torn from his body and he lingered in horrible agony before death relieved him of his suffering. The eye-witness to the tragedy was A. Arrelats, a fireman, who stopped the engine and pulled the mangled body of the unfortunate engineer out of the machinery.

**BARS INVASION OF WHITE ESKIMOS' LAND**

NEW YORK, Sept. 30.—Vilhjalmur Stefansson, the young explorer who covered the blonde Eskimos, uttered a vigorous protest yesterday against invasion of their country by the far north white men. The Canadian government's claim of ownership will cause the deaths of many of them, and not improbably the extermination of the entire tribe.

Meatless is the particular disease from which he would protect the newly discovered land. Diet is made by Stefansson among whalers, fur traders, game hunters or even missionaries. He declares even scientific investigators like himself are a menace.

The Canadian should place the commandments of sanitation on a bar with those of Sinai," he said. "The best I can hope for is to have the Eskimos quarantined by the Canadian government."

**ROAD INTO BIG BASIN.**

SAN JOSE, Sept. 30.—Andrew P. Hill, the president, yesterday announced the appointment of a committee of California Semiprivate club members to conduct a campaign

to insure the passage by the next Legislature of a bill appropriating sufficient money to build a road along the western foothills of the Santa Clara valley into the State Redwood Park in the Big Basin. The committee consists of A. P. Murgotten, Henry L. Middleton, E. A. Hayes, Rev. James P. Morrissey, president of Santa Clara College, and Herbert Jones. This committee will meet Wednesday evening to start the campaign.

**TAX ASSOCIATION WORKS ON REFORM**

Unit Valuation In Appraisements Is Method to Be Worked Out.

**PROFESSOR C. C. PLEHN URGES FIXED RULES**

New System Planned That Will Mean Much for the Property Owners.

Owing to the agitation during the past year over the equalization of assessments and the finding of inequalities on both the assessment rolls of the city of Oakland and the county of Alameda, the problem has been taken up by the Tax Association of Alameda County and is being made the subject of exhaustive study and a great deal of research. Where this problem has been taken up by other cities and improvements made in the matter of property appraisements, the tax association has secured reports on the work done.

At a meeting held in the Oakland Chamber of Commerce Prof. Carl C. Plehn of the University of California and a student of tax reform, spoke on the necessity of having certain fixed rules governing the fixing of assessments, worked out on a systematic basis and administered by trained assessors in order to remedy existing evils in local taxation. The tax association is working out a system by which the value of land may be definitely established and one which, when put in operation, will automatically adjust assessments so as to bring the tax burden upon all equally.

**UNIT VALUATION.**

The plan being worked out by the tax association is one that definitely fixes a unit valuation in appraisements and likewise recognizes all factors that influence the value of a given piece of property. It makes use of what is termed a "unit foot," which in reality is a foot of land 100 feet deep located on the frontage of any block and removed in the frontage as far as possible from the influence of any cross street where the frontage values differ from the one under consideration.

Having established the value of the unit foot on one frontage the same method is pursued on the other three sides and the first division of the block has been established.

By confining the expression of judgment of value to a unit foot, the subsidiary factors of value—size and shape—are eliminated. It has been found that a certain fixed relationship exists between the value of any piece of property and the entire value of the block in which it is contained and when this relationship has been determined by percentage it is an easy matter to fix the value of the lot under consideration.

**OTHER CONSIDERATIONS.**

Under such a scheme the contention is made that the system of fixing of property values, no matter how deep a piece of property may be, is entirely wrong. The tax association's plan takes into consideration that any additional depth over 100 feet is too far removed from the frontage to bear the front-foot valuation and it is only a certain per cent of the front foot value after the 100-foot line has been passed.

This relationship between the entire lot and the per cent of value borne by additional depths is worked out by means of a scale or curve of value which is worked out so that this curve can be applied to any block in any location. It is necessary to know the frontage and depth of a certain lot in order to determine its per cent of the value of the entire block in which it lies.

Recognition will also be taken of "corner influence," of the enhancement of property value owing to the location of a piece of property on or near a corner. This corner influence is universally recognized, but without a comprehensive study of such matters the exact extent of such influence is impossible of determination. This influence extends either way from the corner itself, growing gradually less as the distance from the corner increases, until it disappears.

**IMAGINARY CORNER.**

In order to establish the corner influence an imaginary corner lot 100 feet square is erected at the corner to be computed, and this imaginary corner lot is divided into 100 squares, ten feet square, each and numbered in regular order. The value of each of these squares is deducted away from the corner one in every direction and always in proportion to the effect of one street value on the other.

By diagramming any actual lot upon this imaginary corner lot and adding up the values of all the squares and parts of squares inside the actual lot lines the value of the actual lot is ascertained.

The dress rehearsal was letter perfect, and the actual performance will be a surprise and a pleasure to those who will be present.

Recognition will also be taken of "corner influence," of the enhancement of property value owing to the location of a piece of property on or near a corner. This corner influence is universally recognized, but without a comprehensive study of such matters the exact extent of such influence is impossible of determination. This influence extends either way from the corner itself, growing gradually less as the distance from the corner increases, until it disappears.

**REPORT TO BE MADE.**

With the compilation of the present work on the part of the tax association now complete, and uninvolved in a trial on the scheme devised and accompanied by recommendations, will be submitted to the city council, the board of supervisors and the assessors of both Oakland and Alameda county.

Such a general plan for the appraisement of property would not only be of great value in assessing for taxation purposes, but will also aid in determining the cost of street work and street openings to affected property-holders and also in condemnation suits brought by either city or county.

In court proceedings the city or county assessor, working under such a system, would be looked upon as an authority in his sphere and his belief as to appraisements as much as constituted as competent as any outside appraiser who might be brought in.

**JEWEL IS PRESENTED TO RETIRING OFFICER**

Mrs. E. F. Tisdale, retiring president of the Ladies' club of Oakland Commandery No. 11, Knights Templar, has been presented with a commandery jewel set in diamonds, the gift of the club. Mrs. Tisdale, on behalf of the club, has presented a silk beauvais flag to Oakland Commandery, which was received by Commander O'Donnell. Members of the club witnessed the ceremony of consecration.

**Members of Fruit and Flower Mission of the Daughters of Israel Relief Society to Be Hostesses**

All preparations for the tableaux and dance to be given by the Fruit and Flower Mission, an auxiliary of the Daughters of Israel Relief Society, on Thursday evening, at Forsters' hall, Thirteenth and Clay streets, have been completed. The dress rehearsal was letter perfect, and the actual performance will be a surprise and a pleasure to those who will be present.

Among those who are working hard for the success of the affair is Miss C. Jonas.

A number of prominent young women and men have been rehearsing for several weeks, and the cry of "new talent discovered" can now be heard all over Oakland. The floor will be in charge of an efficient committee, who will make it pleasant for those who desire to dance for sweet charity's sake.

**SEEK TO AMEND MARRIAGE LAWS****CALIFORNIAN WINS A NOTED BEAUTY**

Former Miss Dorothy Hesler, Bride of Southron, Arrives From East.

SAN FRANCISCO, Sept. 30.—Amendments to the marriage and divorce laws that the Missouri legislature will be asked to enact have been framed by W. B. Wright of Kansas City, divorce proctor. Some of the reforms proposed are: Court of domestic relations, with executive jurisdiction.

Physical certification before marriage. Six months publication of matrimonial bands.

Prohibition of marriage by mental incompetents, degenerates and criminals. Interlocutory divorce decree one year after divorce suit is filed.

Divorce not final until one year after decree.

Divorce defendant prohibited from residing during life of plaintiff.

**DISTURBS BURGLAR AND SAVES SILVERWARE**

SAN FRANCISCO, Sept. 30.—Hearing surprising notes in his room last night, John Moyles of 136 Brannan street ran into the street to find a policeman. His action disturbed a burglar who had collected \$200 worth of silverware into a table cloth and the lot was left behind when the intruder escaped.

Dr. Cowles and his wife, a cousin of Mrs. Theodore Roosevelt, visited the home in which Miss Hesler was staying in Charlestow a few nights before the navy hop and secretly carried away photograph of the beautiful Miss Hesler.

A note was sent to him by Miss Hesler bearing the signature of the picture. It did not come back and Miss Hesler told the story to Robert and Alice.

On the evening of the ball they approached Dr. Cowles and demanded the photograph. High words followed and Dr. Cowles was flustered in the flurry of facts which followed.

Navy circles were thrown into a high pitch of excitement by the affair. Subsequently a court-martial was held and Miss Hesler traveled naked from Evansville to the chief witness at the hearing. The two officers were found guilty and reduced several grades in rank, but an order was issued later modifying the sentence.

**INDEPENDENT CHINESE LOAN A FAILURE**

LONDON, Sept. 30.—The issue of the "Independent Chinese loan" last week was a failure as far as the public was concerned. Only £1,000,000 of the £6,000,000 offered was subscribed by the public, so that the underwriters had to take up the remaining 60 per cent.

Charles Birch, Irish, the head of the syndicate, said that the number of applications, including those of the underwriters, was 5,600 and the amount asked for was £2,335,000. The loan is quoted at 14 per cent discount.

Mr. Birch's associates say the additional Chinese loan of \$10,000,000 being issued in Hamburg has no connection whatever with the Chinese loan.

## The Milk in the Cocoanut.

It was to have been expected that the San Francisco Chamber of Commerce would have passed resolutions favoring the annexation amendment, but it was hardly expected that a body of sane business men would gravely argue that San Francisco should be allowed to dismember the contiguous counties and annex the most populous sections thereof because the boundaries of the city and county of San Francisco have not been enlarged since 1856.

This silly contention implies that the more populous counties have some sort of a right to enlarge by absorbing territory belonging to adjacent counties which are weaker, and therefore not in a position to effectively resist.

When a consolidated city and county government was framed for San Francisco the territory embraced by San Mateo county was segregated and cut off because San Francisco did not want it. Now she wishes to annex the eastern shore of the bay to compensate her for the territory she deliberately threw away when she organized her present form of government.

But a large portion of the territory embraced within the limits of San Francisco is still vacant; it is not yet built upon, and until it is covered with houses, it is as false as foolish to say that San Francisco lacks room for expansion.

San Francisco is not trying to grab vacant territory. She wants territory already built up—she is trying to annex people and property, not ground to build upon. She has within her limits large unoccupied areas to build upon. Why she wants to extend her boundaries so as to include all the neighboring cities and towns is explained by this paragraph from an editorial printed in the San Francisco Call:

"The public utilities committee has before it now the matters of the Spring Valley purchase, the Hetch Hetchy construction, municipal railway construction, acquisition of the waterfront, establishment of a municipal telephone system and the extension and improvement of the existing transit systems. This mass of proposed municipal ownership legislation is too much. The cost will stagger industry. We should be in a way to repeat the experience of Seattle, which overburdened itself with municipal debt until thousands of small home-owners gave up their little properties, unable to meet the assessments. Any one who saw that time of distress with his own eyes would not willingly vote to have its likeness in San Francisco."

The citizens of Alameda and Contra Costa counties have no mind to involve themselves and their property in this ambitious scheme of municipal development, which the Call says will stagger industry.

If Marshall Black were a poor clerk who had embezzled a few hundred dollars, he would be prosecuted and sent to State's Prison without ceremony. No doubt of that. But he has influential friends and hence is being treated with great consideration. Apparently the chief concern is to provide a way whereby his felonies can be compounded and prosecution averted. Yet the very men who are exerting themselves to save Black from the penalties of the criminal law have been making political capital of the partial administration of the law, of the different treatment accorded rich and poor men.

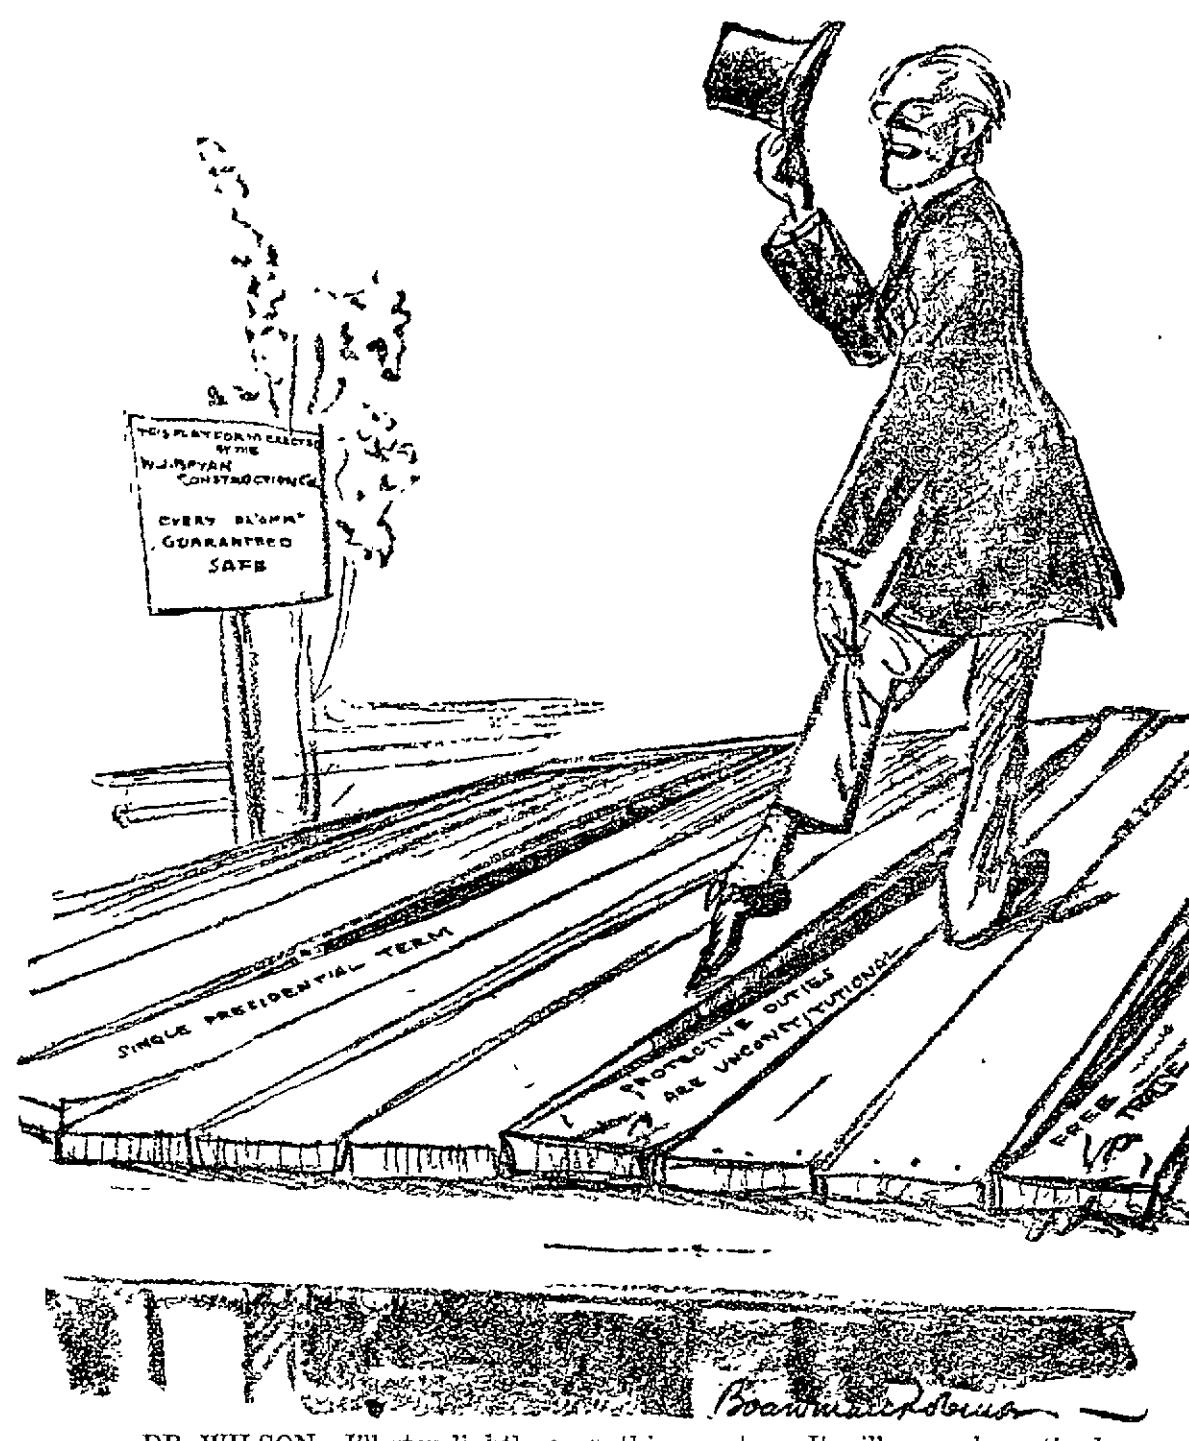

## Bismarck and William II.

"Germany has had no successor to Bismarck," says the Boston Transcript. There has been no need for a successor to Bismarck; indeed, there is no room for a minister of the Bismarck type with a ruler so capable, self-willed and dominating in spirit as Wilhelm II, occupying the imperial throne. Bismarck ruled Germany in the name of the Kaiser. Wilhelm rules in his own name. He is not the man to be the puppet of a minister, and early in his reign he showed that he was a man of his own mind and intended to apply his own ideas to the policy of the empire. Bismarck was too old to change and the Kaiser would not. The Iron Chancellor retired, and Germany gained by his retirement. He was far less liberal in his ideas than the young emperor, and the policy of stern repression he advocated would have inevitably involved the domestic politics of Germany in turbulence and confusion, while the domineering tone he adopted toward other powers was a constant menace to the peace of Europe. William the Second has been a man of peace notwithstanding his fondness for playing the part of war lord, and he has had the wisdom to refrain from using force to repress the tendency toward democracy exhibited by the German people. Nor has he displayed a spirit of conquest in dealing with other nations. He has stood argumentatively for the divine right of kings and medieval conceptions of sovereignty, but he has had discernment enough to see that it was impossible to play the role of Charlemagne and Barbarossa in this day and age. He recognized that the German nation was essentially democratic, and that the Teutonic confederacy euphemistically called the German empire was in reality the expression of the democratic spirit of nationality. Bismarck's idea was totally different. His model of a king was William the First and his model of a minister Cardinal Richelieu. He would have pushed the clock of human progress back two centuries, and treated the crown as the sign manual of absolute authority and not as a symbol of national and race unity. In unifying Germany he intended to found a great monarchy, not a great free nation. William the Second, while dearly loving power, perceived that the day was past for that sort of thing, and he was wise enough to discern the danger to his crown and dynasty of angering his subjects by suppressing the democratic instincts inherited from the days of Alaric and Clovis, who were military chiefs in a tribal democracy. Still less was he inclined to play second fiddle to his minister.

Barbour is campaigning in Alabama, but he does not tell the Alabamans as he did the Missourians that wearing a Taft button is evidence of dishonesty in the wearer. He merely says the Alabamans can only be true to the principles and teachings of their ancestors by voting for him. This is a delicate way of assuring them that he is the reincarnation of Jefferson Davis.

## THOSE ROTTEN PLANKS

DR. WILSON—I'll step lightly over this one, too. It will never be noticed.  
—NEW YORK TRIBUNE.

## The Orange Rebellion in Ulster.

The "Ulster rebellion" is a revival of seventeenth century politics and prejudice. One-fourth the inhabitants of Ireland—mainly denizens of the province of Ulster—threaten to rebel against the authority of the British government and inaugurate civil war if Parliament passes the bill giving the Irish people the right to govern themselves. Religious prejudice is the prompting motive for this display of insurrectionary spirit. The Protestants propose to resist home rule because they are in the minority and will be unable to control the local government which the Liberal ministry is about to establish in Ireland.

One of the most remarkable things about this threatened rebellion against the rule of the majority is the activity of peers and members of Parliament in fomenting and encouraging it. Lord Londonderry harangued a great crowd of Orangemen at Portadown and declared that he would resist the enforcement of home rule. His speech was a direct incitement to rebellion and civil war. Strange talk to come from an English legislator.

Sir Edward Carson, one of the Conservative leaders in the House of Commons, has repeatedly echoed the sentiments of Lord Londonderry, and is clamorously stirring up sedition. His objection to home rule is plainly stated. He declares that a Protestant minority shall never be subjected to the rule of a Catholic majority. Aiding and abetting Lord Londonderry, Sir Edward Carson and the Loyal Orange Society—a secret organization religious in character, politically speaking—is Andrew Bonar Law, the Conservative leader in the Commons. Mr. Law is a Scotch Tory from Canada, yet he is a stout defender of Old World privilege and the ideas which the people of Scotland long ago repudiated. The Scotch of Scotland are Liberals and the great majority of them favor giving home rule to Ireland. But this Ontario Scotchman, born in America and reared in the atmosphere of home rule and equal rights for all, is still fighting King James and the Pope. He has not yet got beyond the revolution of 1688. He is still fighting the battle of the Boyne with King William and besieging Limerick with Ginkel.

The attitude of Mr. Law, Sir Edward Carson, Lord Londonderry and the Orange Protestants of Ulster is a remarkable survival of ancient prejudice. The Protestants of Ulster are the descendants of Scotch and English colonists who settled in the North of Ireland during the reigns of Elizabeth, James the First, Cromwell and William of Orange, and who have ever since viewed the original Irish through spectacles colored by race and religious prejudice. Until recently the British government has carefully fostered and cultivated this spirit of antagonism between the Protestant and Catholic elements of the population.

Catholics were disfranchised and forbidden to hold office till the emancipation bill was passed in the early part of the last century. The passage of this bill was fiercely resisted by the Ulster Orangemen. They protested furiously against men professing the Catholic faith being allowed to vote or hold office. They regarded themselves as conquerors and the Catholics of Ireland as slaves.

They resisted likewise the disestablishment of the Anglican Church in Ireland, which taxed Catholics for the support of the Protestant clergy. They are still imbued with the spirit of hostility to everything Catholic, and say they will go to war to prevent the Irish people being granted the right of local self-government. They still consider themselves as the ruling race, and insist that the native Catholic Irish shall be kept in the same condition of subjection as the colored people are kept in the Southern States.

Rights are regarded by them as the sole possession of Protestants. They persist in regarding Catholics as enemies and foreigners under subjection in their own country. The banner that King William carried at the battle of the Boyne is flaunted as a symbol of their irreconcilable hostility to everything Catholic and to all laws giving freedom and equal rights to the native inhabitants of Ireland. They cannot forget the Boyne, Drogheda, Newtown Butler, the siege of Londonderry and the massacre of Limerick. They are two centuries behind the age.

### FOREIGN STUDENTS IN U. S.

Statistics compiled by the United States countries, 24, Hawaii, 105, Australia, 105, and New Zealand, 26.

Brazil sent the largest number of students from South America, 78; Argentina, 51; Peru, 28; Colombia, 28; Chile, 19, and the other South American countries, 72. Mexico follows Japan in the number of students sent, with 294. All of Central America contributed 64 students to the total. Africa was represented by 26 from Egypt and 88 from South Africa.

Next to the courses in arts and sciences, which enlisted the attention of 1871 students, medicine and its allied courses of dentistry, pharmacology and veterinary medicine were the most popular, enrolling respectively, 548, 322, 44 and 18 students each.

The courses closely allied to the commercial progress of the world drew as follows: Engineering, 683; agriculture, 255; and economics, 249. There were 512 foreign students of theology and 121 of law.

Private endowed colleges and universities and schools for professional education seem to be the most popular with the foreign students, the former class having 1981 on their rolls and the latter 1883.

The colleges and universities of the United States also draw considerable numbers from other countries of the East, India and Ceylon sending 148, Ceylon (Cores) 21, Persia, 17; the Philippines, 123; Turkey, in Asia, 72; other Asiatic

countries, 242; colleges for women, 123.

All You Need Is a 25-Cent Bottle of "Danderine;" Hair Gets Lustrous, Fluffy and Abundant at Once.

Immediate?—Yes! Certain?—that's the joy of it! Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits, particularly those who have been careless.

## PUCCINI MUSIC HEARD BY MANY

"Madame Butterfly" Popular Selection Rendered at Park Concert.

The band concert in Lakeside Park yesterday was one of the most successful in the popular series under the auspices of the park commission given by Paul Steinendorf and the municipal band. About 5000 attended the concert.

The grand selection from "Madame Butterfly" was one of the choice numbers on the program. Paul Steinendorf was for many years a devotee of Puccini music, having a score of the first to conduct a score of Puccini opera at the old Opera in San Francisco. The rendition of the delicate Japanese scenes of the "Madame Butterfly" music was excellent, and the selection was heartily applauded.

The bandmen showed in good advantage in the "Rigoletto" quartette. The concerted work of the Verdi opera is especially suited to a good orchestral band, and the playing proved up to the standard. A Sousa march and a Strauss waltz were well received.

## EDNA GOODRICH'S STORY MAY BE THAT OF CAREER

MISS EDNA GOODRICH.

Series of 12 Will Be Unique in Size and Novel in Design.

WASHINGTON, Sept. 30.—Arrangements have been made by Postmaster-General Hitchcock for the engraving and manufacturing of a series of 12 stamps, unique in size and novel in design, for exclusive use in forwarding packages by the parcels post.

Under the law recently enacted by Congress ordinary stamps cannot be used for this purpose.

The parcels post stamps will be larger than the ordinary stamps, and will be so distinctive in color and design as to avert any possible confusion with stamps now in use.

The new issue will be in three series of designs. The first will illustrate modern methods of transporting mail, one stamp showing a mail car on a railway train, another an ocean mail steamship, a third an automobile, now used in the postal service, and a fourth a dispatch of mail by airplane.

The second series will show at work the four great classes of postal employees—Postoffice clerks, railway clerks, city letter carriers and rural delivery carriers.

The third series will represent four industrial scenes showing the principal sources of the products that probably will be transported extensively by parcels post.

The new book of fiction is said to be most interesting love story, with its scene laid in New York. It is thought by those in a position to know that it will tell the story of an actress to a millionaire widower, with the subsequent divorce. Miss Goodrich reveals something of her life with Nat Goodwin, from whom she recently obtained a decree of separation.

When asked about it today in her dressing room at the Alhambra theater, Miss Goodrich said there was no truth in the report.

"'Deyard's Divorce' contains nothing of my own life," declared the actress. "Whether, while not aware of it, I wove any of my troubles into the story I do not know. I do not believe I did."

Despite this denial, the book will be eagerly read by many who have been following the life of Miss Goodrich.

Additional attractions at the Family Farm detailed the motorists, and in order to make the trip out extra speed, all four entrances that required bonds and got into town in time for their engagements last night.

## NEW STAMPS FOR PARCELS POST

Series of 12 Will Be Unique in Size and Novel in Design.

WASHINGTON, Sept. 30.—In an interview upon the present political situation, President Taft yesterday said:

"A chief issue of the most immediate importance in this campaign, in my opinion, is whether we shall allow prosperity to remain and expand, or whether we shall halt it by our political action."

Money makes the mare go. There can be no permanent social betterment save such as is built on a substantial material foundation. Slums and slumbers are the natural products of economic and industrial disturbance. Religious movements, rescue work, organizations for the uplift of man, all are dependent upon the success of war for the success of their campaigns. They are not prosperity."

It is the opinion that we have allies and enemies among our noisiest neighbors. It is the propulsive force behind the onward march of civilization.

"And prosperity is here. The evidence of industrial activity is abundant. Commerce has grown by leaps and bounds. The great transportation systems of the country are hard pressed to move the myriads of products that enter into interstate commerce."

**STATISTICS TELL STORY.**

"The activities of the financial institutions are the main factor for the successful carrying on of the various branches of business have never been so extensive. Bank deposits and clearings have reached a maximum. Factories are no longer idle and are operating at a surer, profitabler market."

"The American workman and mechanic has never before been so well and steadily employed, nor so well paid. Testimony on the subject is scarcely needed where the facts are so well known. The president and some of his associates, presented and some of the testimony, is of startling interest."

"Let statistics tell the story. During August, total gross earnings of railroads were \$71,531,692 in 1911, and \$62,005,187 in 1910.

"The number of stockholders in 242 railroads and corporations increased from 39,126 in 1910 to 872,389 in 1911. From 30 to 50 per cent of the stockholders are women."

"Unfilled orders of the United States Steel corporation for the eight months ending August 31, were \$1,632,871 tons in 1912, 2,612,720 tons in 1911, and 3,031,121 tons in 1910."

**FARM PRODUCTS INCREASE.**

"The value of farm products has increased from \$4,717,000,000 in 1910 to \$8,417,000,000 for 1912. The value of grain and farm products, which was \$20,440,000,000 for 1910. The value of cotton and tobacco, which was \$30,000,000 in 1910, has likewise doubled reaching a total of \$40,991,000,000 in 1911. Grain clearings for the eight months ending with August 31, were \$106,728,996."

## REAL CAMPAIGN ISSUE IS PROSPERITY, SAYS TAFT President Proves by Figures That Nation Thrives Under Protection

BEVERLY, Mass., Sept. 30.—In an interview upon the present political situation, President Taft yesterday said:

"Crude materials imported for use in manufacturing aggregated a value \$451,000 in 1910, \$500,000 in 1910, and the bureau of statistics of the department of commerce and labor, basing its computation on the reports for the first eight months of the year, estimates their value at \$500,000,000 in 1912."

"New building in the principal cities of the country for the eight months ending with August totaled in 1910, \$377,165,500, in 1911, \$40,568,684, and in 1912, \$41,550,000."

"Exports for the first eight months of the year reached \$1,054,000,000 in 1910, \$1,260,000,000 in 1911, \$1,417,000,000 in 1912."

"Idle freight cars on August 31 numbered 50,720 in 1910, 45,511 last year; 37,600 in 1912."

**EXPORTS SOAR SKYWARD.**

"Our average annual exportation under the tariff since operations of the Wilson bill was \$896,000,000. Under the protective tariff period was \$235,000,000. It will reach a billion dollars for this year alone."

"The demand for labor is greater in excess of the supply. According to the officials of the immigration bureau of the immigration service the district around Pittsburgh is from 75,000 to 100,000 men short. And the demand from immigrants, the steel and lumber industries, the brick manufacturing centers and the farms continues unabated, although the immigration lists maintain their usual proportions."

"There would disturb these conditions?"

"Only one danger menaces the continuance of this country's wide prosperity."

"If the result of the election were to put the Democrats completely in control of the house, we are bound to see a reduction of duties upon all those articles the manufacture of which needs protection, and we may anticipate a serious injury to a large part of our manufacturing industry, a return to the days of times that we had before 1890 and 1897."

"The Democratic platform declares protection to be unconstitutional, and thus clearly indicates the Democratic intention to depart from the protective tariff. The time is ripe to bring home to the people that a change of economic policy, such as is deliberately proposed and contemplated, would halt many of our manufacturing enterprises and increase out of employment would injure the home markets, which the farmers now enjoy, and produce a condition of suffering among the people that no reforming legislation could neutralize or mitigate."

"Let us cultivate prosperity by maintaining our present economic basis and by the encouragement of business expansion and progress through legitimate use of capital."

**QUARANTINE PLACED  
ON HAWAIIAN FRUITS**

WASHINGTON, Sept. 30.—Notice of quarantine against 30 fruits and vegetables of Hawaii because of the prevalence of the Mediterranean, or (ceratitis capitella) in the territory, has been issued by the department of agriculture.

The fix is new to the United States. It has never been widely prevalent in this country, and the department of agriculture desires to prevent its introduction under cover of Hawaiian products.

The lists of fruits and vegetables against which the ban has been raised are alligator berries, carabinolas, Chinese plums, Chinese oranges, dragon plums, Eugenias, figs, grapes, grapefruit, green peppers, guavas, kumquatas, luscious oranges, mangoes, mock oranges, mountain apples, Natal plum, oranges, papaya, peach, persimmons, prickly pears, rose apples, star apples, string beans and tomatoes.

MRS. LESTER GREENE has sent out cards for the first of a series of bridge parties which she will give on the afternoon of October 2. Her guests will include about forty members of society in Piedmont and Oakland. The dates for the later affairs have not been definitely set.

Mrs. Greene, as Miss Mollie Mathes, was one of the most popular of local beauties.

Mrs. George Wilhelm and her sister, Miss Bunnemann, will be joint hostesses on October 22, when they will give an afternoon at the card tables, entertaining many of the local snoot set.

Another affair which will claim a group of society folk is the bridge afternoon which Mrs. Murray Orrick will give this Friday, making Miss May Coolan the complimented guest.

WEDDINGS OF WIDE INTEREST.

Miss Edith Gere Kelley and John Woodruff Garthwaite are to plighted their troth this Wednesday evening before their many friends in Trinity Episcopal Church. Miss Muriel Kelley will be her sister's only attendant, and Ralph Butler will be groomsman for Garthwaite. A reception at the home of the bride's mother, Mrs. George Kelley, will follow the church ceremony. Only the members of the two families have been invited to the reception. Garthwaite and his bride will reside in the southern part of the state, where the former has orange groves. The wedding of Miss Cecilia Childs to Charles Harold Ramsden will take place the same day at the home of Mr. and Mrs. Venable Childs, 115 Franklin. Only the two families will be present at the ceremony, which will be followed by a large reception. Miss Childs and her fiancee are both graduates of the state university and have many friends in college circles. While in college Ramsden was prominent in student affairs, being secretary of the associated student body and manager of the Journal of Technology. He is the son of Mrs. Caroline Ramsden and is engaged in business in San Francisco.

PETITION BEARS 10,000 NAMES MORE THAN LAW REQUIRES.

A petition with ten thousand names more than required has been filed, thereby insuring the placing of the anti-capital punishment question before the voters at the next election, according to J. H. Young, secretary of the Anti-Capital Punishment League.

Through an error it was announced that time for securing names to the petition had expired. Young said names could be secured until September 27. The original petition was to be filed with the secretary of state on September 17, but ten additional days were allowed in which to secure more names and to file supplementary petitions with the secretary.

According to Young, all requirements have been strictly adhered to.

## WOMEN IN THE NEWS

### 'HE LOVES ME!' SAYS HEINZE'S WIFE

Former Bernice Henderson Laughs at Gossip of Another Woman

EW YORK, Sept. 30.—Mrs. F. Augustus Heinze, formerly Mrs. Bernice Golden Henderson, emotional actress, was calm with the confidence of perfect tranquility when she heard yesterday a report from Fort Worth, Tex., that Mrs. Lillian Hobart French was in that city, coincidentally with Heinze's presence there on business.

"I am firmly convinced that Mr. Heinze loves me and I know that I love him," she said.

"These rumors of estrangement and of another woman's part in his life do not disturb me. If I could stand the news of Mr. Heinze's affair with Mrs. French three days before my marriage to him, I am sure that no report of a renewal of the affair can make any difference now."

Mrs. French, a stately woman of the Tudor type, is she who a few years ago was the design of Anna Odella Dies Dohen in the Mahatma "temple" here and whose acquaintances with the copper king was then mentioned.

Only three days before Mr. Heinze's marriage to the cultured and charming woman who is now his wife, Mrs. French made public a declaration that she had a prior "claim" to his affections and also to part of his wealth.

She represented that she had been in charge of his home at a salary of \$200 a week and that he had given her \$22,000 in copper stock.

When the 1907 panic put him into difficulties she said Heinze had "borrowed" the stock and had never returned it.

But Mrs. Henderson noted the woman's story and was married to Heinze on Aug. 31, 1910. While they were on their honeymoon abroad Mrs. French entered the following on the record of public announcements:

"Pritz Heinze will return to me. He has done it before and will do it again. I shall not have to drag him back."

### Denies Divorce

NEW YORK, Sept. 30.—A cablegram received yesterday from the first wife of T. Waldo Story flatly denied that she and Story, who now says he is married to Bessie Abbot, the opera singer, had ever been divorced. Story and Miss Abbott were said to be in Boston last night.

But Mrs. Henderson noted the woman's story and was married to Heinze on Aug. 31, 1910. While they were on their honeymoon abroad Mrs. French entered the following on the record of public announcements:

"Pritz Heinze will return to me. He has done it before and will do it again. I shall not have to drag him back."

### Answers to Queries

S. H.—The woman who eats in temperately or drinks spirituous liquor of any kind may be sure that after 35 her nose will coarsen, and nothing but the strictest diet and simplest food will bring it back to its youthful contour. About the coarse nostrils and the wigs of the nose is a skin which you usually find blackheads. One should be careful in washing the face to rub this part carefully, keeping it thoroughly clean, and at the slightest hint of blackheads it should be scrubbed at night with a laitier made of tincture of green soap and water and some healing cream put on afterwards. It is almost impossible to change the shape of the nose without a surgical operation after one has grown to adult age, but if mothers would make a little effort they could mold the plastic bones of their babies' noses with ease.

Realize Dangers of the  
Metropolis Scheme.

Meetings In San Joaquin Valley to Be Addressed by  
Oaklanders.

Robert H. Magill Jr., who has been touring the northern part of the state in the interest of the anti-annexation campaign, returned to Oakland last night with enthusiastic reports as to the feeling aroused against annexation where he went. Magill visited the newspaper offices in particular, being a newspaperman of 30 years' standing, but he devoted some attention also to officials and other prominent men.

"I was not turned down once with opposition to our side of the question," Magill said. "All through the Sacramento valley feelings are with us. I visited all the newspapers and after explaining our point of view, succeeded in most cases in obtaining press space for interviews, explaining the opposition to annexation. Many of the San Francisco people already sent their literature in favor of annexation. None of it had been used, as the editors looked with suspicion on the project. Now most of them are active on our behalf."

### REALIZE DANGER.

The people of the Sacramento valley realize what dangers annexation of the cities surrounding San Francisco have for them. They do not want to be dependent on San Francisco, also they do not want the great docks and wharves of the bay and the want the new electric connection to have a real terminus here so that they may make use of it.

The same is true on the other side of the valley, where the Northern Electric connects with the Vallejo & Northern. They see that if San Francisco is permitted to gobble up the surrounding cities and thus gain control of the waterfront, that city will operate the waterfront for its own benefit and not for theirs."

### JUDGE BARBER INTERESTED.

Magill had an interesting interview with Judge Barber of Shasta county, who was a newspaperman in Oakland many years ago. Judge Barber has just been renominated for the Superior bench, and has little opposition.

He is going on his campaign through the county in a few days, however, and he will preach against the annexation amendment wherever he goes.

"The people in the Sacramento valley are very impressed by the fact that ours is a fine fair play," Magill said. "They realize the injustice of San Francisco's attempt to gobble up the surrounding cities and saddle upon them increased burdens in the shape of bond issues."

Magill will remain in Oakland a few days and then start out again on his journey throughout the state in the interest of anti-annexation.

### TO WORK IN SOUTH.

J. F. Summers, state secretary of the Afro-American league, will leave Oakland this evening on the Owl train for Los Angeles to arouse sentiment against annexation and point out the dangers lurking in the amendment that is intended to make possible the gobbling up of Oakland and surrounding cities by San Francisco. Summers will travel throughout the state, visiting the many councils of the league. He has been state secretary for 18 years and has much influence in the Negro League. After a short stay in Los Angeles he will go to San Diego, Pasadena, Redlands, Fresno, Bakersfield and Stockton and then visit the northern part of the state.

### PLOT MUST BE DEFEATED

(By CHARLES HEYER, Mayor of Hayward)

**T**HIS amendment that would permit large communities to annex smaller centers of population across county lines must be defeated at the polls in November. I am opposed to every phase of the amendment. From a business standpoint it would be a disaster to Oakland, Berkeley and Alameda if San Francisco were to be given a hand in forming their policies for industrial expansion.

The great harbor and other improvements now under way in Oakland under the progressive municipal government would come to a standstill. It would be to San Francisco's interests to deflect all deep-sea shipping to its shores and she could only do that by preventing the development of Oakland's waterfront. Oakland's prosperity is ours. All the smaller towns in Alameda county, especially those situated along that main artery of traffic, East Fourteenth street, are in great part dependent upon Oakland for business activities.

I think all observing citizens in the east end of Alameda county are opposed to the iniquitous amendment. From what I know of the feeling in this end of the county the measure will never carry. At any rate I consider it the duty of every citizen to vote NO on the proposition in the November election.

leadership of Dr. Minora Kibbe, have undertaken a vigorous campaign against annexation to San Francisco.

Three meetings will be held Wednesday afternoon at private residences in Fruitvale, at which the women present will listen to arguments against annexation. Dr. Kibbe is president of the Laurel club.

The Ladies of Diamond will hold a meeting next Friday afternoon at 8 o'clock under the auspices of the Women's Improvement Club. Professor W. E. Gibson will address the meeting. Another large meeting will be held later to oppose annexation.

Next Saturday afternoon the colored women of Alameda county will hold a meeting at the headquarters of the Women's Auxiliary of the Alameda County League. Bernard F. Miller will point out to them the dangers of annexation. Dr. Kibbe is president of the Laurel club.

The Boys of the Manual Training and Commercial high school who are members of the Progress and Prosperity Committee, a school organization, auxiliary to the Chamber of Commerce, are to distribute 20,000 buttons bearing the inscription, "My City, Oakland," and literature bearing on the annexation question to the pupils of all the Grammar schools in Oakland this afternoon.

Harvey A. Lewis, vice-president of the Junior Progress and Prosperity Committee, has been appointed commander in charge of the juvenile campaign, and Allan Spencer, president of the junior members, is assisting Lewis. Buttons and literature will be distributed by the following students of the school:

Bay, Walter Anderson; Clawson, Judson Thompson; Dowsay, Chester Williams; Durant, John Cowley; Cole, Leslie Norton; Elmhurst, Raymond Tupper; Emerson, Donald Young; Franklin, Arthur Atkin; Fruitvale No. 1, Arthur Lacoste; Fruitvale No. 2, Albert Baender; Fruitvale No. 3, Wilbur Warner; Garfield, Joe Laurent; Grant, Ernest Bernstein; Highland, Lester Cole; Lafayette, Clarence Street; Lincoln, Lloyd Brown; Lockwood, Clarence Letter; Longfellow, Lawrence Belford; Manzanita, Ed Nelson; Melrose, Archie Munjan; Melrose Heights, Griffin Gish; Peralta, Tom Lambert; Piedmont, Ed Cavanaugh; Prescott, Herbert Fahy; Tompkins, Rufus Timm; Washington, Frank Young; Sweet, Hugh Fulton.

"I found an estimate of most people with us," said Clarken. "They talk of annexation as a cold-blooded steel, and they are not backward about expressing themselves about it. Also, they want to see Oakland's individuality maintained for the general benefit of the interior of the state."

Clarken made an address before the directors of the Fresno Chamber of Commerce, pointing out to them the dangers to Fresno that lurk in San Francisco's plan to gobble up the cities surrounding it. The directors were responsive, and expressed themselves against the proposition.

"I found an estimate of most people with us," said Clarken. "They talk of annexation as a cold-blooded steel, and they are not backward about expressing themselves about it. Also, they want to see Oakland's individuality maintained for the general benefit of the interior of the state."

District Attorney Free Asks Judge Richards to Take Up Investigation.

SAN JOSE, Sept. 30.—District Attorney Free today asked Superior Judge Richards to call a grand jury to investigate the shortage of Senator Marshall Black as secretary of the Palo Alto Mutual Building and Loan Association. The attorney has a jury drawn at the very earliest date possible, with the three superior judges sitting en banc.

**CITY WILL BUY SIX AUTOMOBILES**

Bids were received by the city council this morning on six automobiles as follows:

For four automobiles, for building inspectors, street inspectors and milk inspector, from Charles Allen, \$665 each; from Standard Motor Car Company, \$585.

Two automobiles for electrical inspectors, \$500 each; from Standard Motor Car Company, \$585 each.

The advantage of a self-starting equipment on an automobile was impressed yesterday upon J. P. Perry, a fireman, 825 Twenty-seventh street, and Harry Correll, a helper, living at 833 Forty-sixth street, both of whom went to the receiving hospital because of the "kick-back" of starting cranks. Perry has a lacerated chin, and Correll a broken right forearm.

**TWO REPORTED MISSING.** The police have been asked to search for Lucile Blanda, aged 14 years, a negro, who has been missing from her home, 1708 Fourteenth street, since last Wednesday.

Iron Ore, 874 Isabella street, 13 years of age, was reported missing by his parents since September 28.

EXPERT TO TELL  
OF CITY NEEDSRAILWAY EMPLOYEE  
DISAPPEARS FROM  
BERKELEY HOMESecretary Mason of Municipal  
League to Speak Before  
the City Club.

BERKELEY, Sept. 29.—Secretary H. A. Mason, of the League of California Municipalities, which closed its convention here Friday, is to be the guest of the committees on city affairs tomorrow evening at dinner at Frank's cafe. He will speak on "Bureau of Municipal Research and Efficiency." Mason has been Secretary six years of terms of the league and thus in close touch with the municipal progress and needs of the state.

The City club recently appointed a committee consisting of President Juan P. Barrows, Professor William Carey Jones, S. N. Warkoff, C. C. Young and George E. Burroughs, to look into the feasibility of the proposed a new municipal hall. The club's invitation to President Mason of the University of California and to Mayor Wilson to appear similar committees to speak with him was accepted promptly and cordially.

President Wheeler has appointed Thomas H. Reed, J. R. McMurray and H. R. Hartfield, H. C. Young and George E. Burroughs, Charles Gilman Hyde and City Engineer J. J. Leggett, and a conference of the three committees will be held this evening. It is anticipated that a preliminary report will be made at the meeting at the Society Tuesday night.

This meeting is the regular meeting of the civic committees of the City club. The incoming president of the club, more important than the chairmen of the club's civic committees, William Carey Jones, committee on municipal affairs, which has general supervision over all committees, General Surgeon, was present. Professor C. L. Carey, telephone, O. C. Merrill, electric lighting plant; H. L. Loup, municipal research and current bibliography; Wm. G. Conroy, public works; J. J. Foy, foreign infections and diseases; Albert Schneider, drugs and medicines; A. E. Graham, food supply; J. C. Merleman, city planning; D. W. Dilley, mechanics; Charles Gilman Hyde, garbage and refuse disposal; C. L. Higgins, public highways and streets; W. A. Wain, equalization of taxation; Wm. G. Conroy, joint committee on government and Greater San Francisco; Ira W. Howarth, adult education.

CLERGYMEN HONOR  
REV. W. M. MARTINUnique Testimonial Is Given  
Alameda Minister by The  
Pastor's Union.

ALAMEDA, Sept. 30.—The First Methodist church auditorium was crowded to the doors last night with a congregation representing every church in the city and gathered to do honor to the Rev. Willard M. Martin, who is leaving Alameda this week for Boise City. The afternoon service was conducted by the various ministers, courtesy ever shown an Alameda minister. The gathering was a virtual love fest, for the retiring pastor of the First Methodist and successful minister the church has set back. He is also highly esteemed by his fellow ministers and by Alameda citizens at large.

The services were under the direction of Dr. Frank S. Braden of the First Presbyterian Church. Other ministers taking part were the Rev. J. F. Foy, pastor of the First Congregational Church, Rev. S. E. Crooks of the Santa Clara Avenue Methodist church and the Rev. Dr. Edward L. Marshall of the First Methodist Church. A fare-well reception will be extended to Rev. and Mrs. Martin in the church parlor tomorrow evening. They will leave the middle of the week for their new home in Boise City, where they will have as their pastor the Rev. H. E. Beck, with the Rev. W. M. Woodward as assistant.

PREFERS POLITICS  
TO WORK OF MODELMiss Maurine Rasmussen of  
Berkeley Wearies of "Stand-  
ing Still."

BERKELEY, Sept. 29.—Miss Maurine Rasmussen, who has been declared by the artist Harrison Fisher, to be the nearest the perfect type of the Western girl, is recovering from a severe attack of pneumonia polarizing at her home, 3411 Euclid avenue. Her illness was caused by eating ham and drinking a glass of sherry wine.

Miss Rasmussen has appeared on the stage in several beauty shows. She was engaged for a season at the Winter Garden in New York and recently gave up her position with a Chicago musical company to return to her home.

Referring to her recent announcement that she would never again pose for an artist, Miss Rasmussen said:

"No more posing for me. I like to be on the move too much."

"One has to sit so still and keep so quiet that it tires me out. I much prefer pictures. It is ever so much more exciting and there is something doing all the time."

When asked if she had registered, she replied: "You bet I did, and I'm going to vote for the best man, too."

DILLON AND KING  
PLAY FINAL WEEKComedians Are Seen In Hi-  
larious and Musical Farce-  
Comedy.

They were all there, young and old alike. The many admirers of the clever Dillon &amp; King Company crowded their way into the Columbia Theater at all performances yesterday to bid farewell to the popular vaudeville troupe.

The cozy playhouse was filled from pit to gallery. Standing room was at a premium. Show folk clamored for a last chance to laugh at those amusing stage characters. Mike and Mike, who succeeded in getting admission to the theater loudly applauded their favorites as they appeared in their respective roles.

Ben T. Dillon and Will King chose wisely when they picked "Room 33" for their farewell vaudeville. The act to scream from curtain to curtain with splendid parts for everybody. The play is a farce comedy with many tuneful musical intermissions. The scenes are laid in a small apartment hotel during county fair time.

The question for discussion this year is: "Is it legal that California should establish a series of endowed and non-partisan general newspapers?" The subject was suggested by California and Stanford has chosen the negative. The team to be chosen Thursday evening will consist of three men. A second team of similar number will be selected to furnish practice for the first. The debate will be held November 1 at Harmon Gymnasium.

SENT FLOWERS TO GIRL

A young woman friend in Berkeley, whose name has not been given out, received flowers from young Boynton, delivered by a florist on Post street, San Francisco, about noon of the Friday previous to his disappearance. With the flowers was a note from Boynton, stating that he had sent her a photograph and asking her from him. A young man, rooming in the same house on Henry street, had a letter to the same effect asking him to look out for his money and personal effects.

It is feared that young Boynton has made way with himself, either through unrequited love or from despondency caused otherwise. His fellow workmen, it is said, noticed within the last month that he had been acting peculiarly.

Young Boynton was a general favorite with Mr. Crocker, who is in charge of the local service of the Southern Pacific, and has had men out looking for him since the news of his disappearance.

About two months ago his brother, T. I. Boynton, was here from Connecticut and visited with him.

Boynton is described as over six feet tall and good looking.

CLASS OF 150 MEMBERS  
RECEIVES COMMUNION

ALAMEDA, Sept. 29.—At St. Joseph's church here, yesterday morning, the class of one hundred and fifty little children, one hundred girls and fifty boys, received their first Holy Communion. The sacrament was administered by the Rev. A. Foley, rector of the parish. Father Foley explained the rite and delivered the sermon to the children.

The church offered an imposing sight at the 7:30 o'clock mass when the little girls in long flowing bridal veils with streaming silken bows upon their left arms, marched up the aisle to receive the Host.

Father Foley explained to the children the serious importance of the step they were taking and urged upon them a pure and holy life.

During the mass the children sang several hymns. Following the services the little ones all repented to Lafayette Rectory, where they received absolution from the ladies of the parish and the sisters of Notre Dame. The children were instructed for the reception of the sacrament by the parish priests and the sisters.

MRS. ATHERTON TO TALK  
TO RICHMOND DEMOCRATS

RICHMOND, Sept. 30.—Plans are being completed by the Wilson-Marshall club of this city to have a mass meeting here during the middle part of this week in Bank hall. At this time Mrs. Gertrude Atherton, the noted authoress, will be the honored speaker of the evening. Recently she debated against Roosevelt speakers in San Francisco. It is expected that Mayor J. C. Owens, nominee for the State Senate, and E. W. Hadey, nominee for the Assembly, will also be speakers at the occasion. The Cham Clark club of this city will be represented.

The meeting will be held at Boomer Hall, 14th and 18th streets. The Rev. Charles L. Meeks of the First Congregational church was in charge of the services.

MRS. PROGRESSIVE TAXPAYER.

MINERS REFUSE TO  
GIVE UP THEIR ARMS

CHARLESTON, W. Va., Sept. 30.—Inherent success met today's effort to have miners in the country north of Kanawha surrender their arms to the committee of businessmen which promised Governor Glasscock to bring this about. He would not extend the martial law here, but miners were held at Boomer Hall, 14th and 18th streets, while the miners advised them to retain their arms.

MRS. ALBERT ALEXANDER has returned from her honeymoon and is receiving the congratulations of friends. Mrs. Alexander was married to Mr. Frank Alexander, who is now serving as a member of the Board of Education.

ALAMEDA PERSONALS

HELD THIS MORNING

ALAMEDA, Sept. 29.—Many Grand Army veterans attended this morning the funeral services for the late George W. Gordon, past post commander of Grand Army post No. 1. A large delegation of Grand Army members and George Gordon's post of Oakland were also present at the funeral. Gordon was a highly esteemed man. The funeral services were conducted from his home, 12th and 18th streets. The Rev. Charles L. Meeks of the First Congregational church was in charge of the services.

The funeral services were conducted from his home, 12th and 18th streets. The Rev. Charles L. Meeks of the First Congregational church was in charge of the services.

MRS. EDWARD TANSEY.

BERKELEY, Sept. 29.—Rev. Edward Lamb Parsons, rector of St. Mark's Episcopal Church, appeared before the city council this morning in the interest of the establishment of a municipal employment bureau. Rev. Parsons is head of the Bureau of Employment Organization Society. He declared the society directors believed it would be impossible for a man paid for half time, as contemplated in the year's budget, to organize an effective bureau. He promised to have further data to offer at a future meeting of the council.

ACCUSED OF WHITE SLAVERY.

The trial of Louis Gassmann, a harpooner accused by the police of white slavery, was begun this morning in the superior court before Judge John Ellsworth.

Gassmann is accused of having placed

Mildred Johnson in a house maintained by Baker at Baker street, and to have

been an active participant in the

white slave trade.

The trial was adjourned until tomorrow morning to pass upon salary warrants. Only routine business was transacted.

WILSON TO ADDRESS  
GOOD ROADS CONGRESS

SEA GIRL, N. J., Sept. 30.—Governor

Wilson left this morning for Atlantic City to welcome the Good Roads Con-

gress. The arrangement was made

for he was nominated for the presi-

dency and it was not expected that he

would make a political address. Before leav-

ing the governor said he had nothing to

do with his statement of last night, urging

the governor to the annual meeting of the

Good Roads Association at Syracuse, to make an un-

housed selection and to keep in close

touch with the situation at Syracuse

through Senator O'Gorman.

## KNOWLAND URGES LEAGUE GUESTS WORK ON MISSION VISIT RICHMOND

**Autumn Festival to Begin With Entertainment on Friday.**

**HAYWARD.** Sept. 30.—Pioneers of this section will be the honored guests of the Hayward center of the California Civic League that will hold an autumn festival starting next Friday. Elaborate arrangements have been made for their reception and a partial list of those who will be entertained has been given by the entertainment committee that will have its headquarters at the Native Sons' hall.

Mrs. R. W. Maatik, president of the center, will be in charge, assisted by Messengers B. F. Giddings, A. J. Powell, L. R. Rosenberg, N. C. Padlock, Blanche Van Etta, C. Corwin, William Angus, F. E. Allen, B. J. Bettencourt, C. L. Little, John A. Park, E. J. Molette, B. H. Strawbridge and Charles Spurr.

The hall will be decorated with flags and greens, suggesting the autumn season. Miss C. Martin of San Lorenzo will be in charge of all parts of the decorations. Passions have been granted by the board of town trustees to decorate the streets, which will be elaborately decorated by a committee appointed for the work.

The following program has been arranged for the opening day: Specialties, by Miss Rose Harrison; old songs, Miss G. Freitag, medley, by John Banana. The evening program will consist of selections by Hal Angus; songs, Miss Golcher; violin solo, Miss Fern Beckman; song and dance, Robert King; vocal selections, Miss Harrison.

Saturday, the closing day, will be devoted to the entertainment of school children at the chapel. The building is the oldest in Alameda county, having been completed May 15, 1791.

## SANTA FE SOON TO DOUBLE TRACK

**Officials Say Entire System From Arizona to Richmond Included.**

RICHMOND, Sept. 30.—That the Santa Fe railroad company is already at work double-tracking its line in Arizona, and that it will continue the work through California and to Klamath, where its coast terminals are, was the statement given out by the company officials this morning from the San Francisco offices to the local officers here. The lines as far as San Bernardino will be double-tracked by the end of 1913, and during the next year thereafter this improvement will be extended north to this point. In addition to the main line, there will be both freight and passenger, incident to the Panama-Pacific Exposition of 1915. This general order emanates from the New York offices of the company and the work of double-tracking this vast system of railroads in Arizona will be the responsibility of the general offices both at Topeka and San Francisco. This move is in keeping with the plans made some time ago to double-track the division between Stockton and Richmond, and work is already in progress, in the way of surveys and the引導 of cuts and embankments for the purposes of admitting a second line of steel.

Incidental to these improvements of the Santa Fe company in general will come a number of improvements local to this term, such as widening the roadbed, elimination of sharp curves and other measures will be recommended. Some time ago a course was marked out for automobile to follow in turning the corner. Unless an officer is there to enforce the regulations, however, drivers continue to ignore the instructions and accidents follow.

## PATROL TO GUARD 'DEATH' CORNER

**Scene of Many Fatal Accidents Will Be Watched by Officials.**

HAYWARD, Sept. 30.—A popular agitation has been started to have the board of trustees appoint a patrol to control traffic at E and Castro streets, the scene of several fatal accidents and many serious ones in the last few months. This corner is considered one of the most dangerous in the county and on Sundays a policeman is stationed there to arrest all violators of the street ordinance. Several patrols have been made but the accidents continue in spite of the patrols and different measures will be recommended. Some time ago a course was marked out for automobile to follow in turning the corner. Unless an officer is there to enforce the regulations, however, drivers continue to ignore the instructions and accidents follow.

## SICK BOY WANDERS: POLICE SEEK HIM

MELROSE, Sept. 30.—The local police and local residents, old John Keef living at 201 Neptune street, San Francisco, who is believed by his parson to be somewhere in this neighborhood. The lad ran away from home twice before he came straight to Melrose, where he was picked up by the authorities. The lad has an unaccountable penchant for coming to Melrose and wandering about the streets.

This time the lad fled from a hospital in San Francisco where he had been operated upon for appendicitis. The lad is in a weakened condition from the operation and it is feared that he may have come to grief.

## RICHMOND FRATERNITY TO BOOST FOR HARBOR

RICHMOND, Sept. 30.—A regular meeting of the I. C. S. Fraternity, held in the office of Professor Blakely of the Richmond Business College, was presided over by the president, H. M. Pillars. Addresses were made by E. DuMont, Donald Yazz, G. A. Scott, S. A. Day, E. Miller, E. Little and F. J. Martin. The meeting, which Brookdale avenue will be made almost straight and brought to an easy car line grade up the hill from Fruitvale avenue.

**RICHMOND DRUMMERS TO MAKE MUCH NOISE**

RICHMOND, Sept. 30.—The creek drum corps, Richmond Artillery of Bands, received and accepted an invitation to join the State organization of drum corps of the order, which was organized some time ago, and which now has a dozen or more corps within its membership. There is a convention of all these drummers, scheduled by May 1, for hundreds of other Dixie bands, some time between now and the holidays. In Oakland, and the Richmond noise-makers are going to be present in full force and strength.

**WORK ON BIG BRIDGE AT NILES IS RUSHED**

NILES, Sept. 30.—Work on the new Niles bridge is being hurried along and three shifts of men will work day and night until the structure is finished. A system of powerful arc lights has been installed that the men may work at night.

The contractors, the Locke Construction Company, are trying to have the bridge completed before the early winter rains cause the usual flood waters in Niles creek.

**SAN PABLO PERSONALS.**

SAN PABLO, Sept. 30.—The Catholic fair given at the church hall under the auspices of St. Paul's church was a decided success in every way, for the admission was large, the enjoyment all around was great and the financial results of considerable.

Mr. A. J. Shier, who has been spending some weeks at her San Leandro country home, returned to her home on Carmel avenue Thursday.

Donald F. Tilligillen of Sausalito is the house guest of his brother and wife, Mr. and Mrs. William Tilligillen, at their home on Highland street, at that home on Highland avenue.

Mr. and Mrs. Clark Pomeroy of Oakmont, who are the parents of the young

Misses Anna and Jeanette, have come to the mountains, where they will spend several more weeks before returning to the city to their home in San Francisco.

Charles Gilman and his mother, Mrs. Martha Gilman, have taken the Mountain home on Mountain avenue for the winter.

Miss Annie Kesler of Linda Vista will entertain a number of the younger enti-

entes at her home at Mountain hall, Saturday evening.

Frank O'Brien, bridge construction engineer of the Northwestern Pacific, returned home Saturday from Visalia.

Miss Sarah McDonald of Main Avenue was the guest of Mrs. Frank F. Mc-

Dowell, a prominent San Pablo business man, the morning after a six

o'clock visit.

Members of this section are pre-

pared and will plant easily as a

seed tree.

Others are playing here

in another way ever since the recent

heavy rain.

San Pablo service is now main-

tained by the telephone company.

There are five minutes, with

some extra time.

During her absence, her mother, Mrs. M. Mc-

Dowell, will visit relatives in Alameda.

## ANGELS WIN TWICE, BILL'S GANG SLIP BUT THAT DOESN'T HELP MUCH

**Happy is the One That Feels Effects More Than Does the Oakland Team.**

LOS ANGELES.

Sept. 30.—Between forty and fifty automobiles carrying about 150 delegates to the convention of the California League of Municipalities entered the city from Berkeley Saturday afternoon on the excursion arranged for the entertainment to show the representative officials of the various towns and cities of the state just what has been accomplished in the building of a city here during the past ten years from fields to a thriving city of 150,000 inhabitants.

The auto-pronged deed was accom-

plished by a rejuvenated twirling staff.

Bill Tozer, who has been in citizens

clothes for many a day because of his broken wrist, was an 11 to 4 winner in the first game, and the Angels' Whistling man who was blanked in the first three batters was scarcely endangered in the p. m. go and

gained through with a 4 to 1 victory.

## INSURE MOOSE ELECTORS PLACE

## M'QUOID WINS CONTROL OF BOY

Youth Will Be Waiting When Father Returns From Honeymoon.

SAN FRANCISCO. Sept. 30.—When Frank McQuoid son of one of San Jose's pioneer families and his bride, the former Mabel Fair, cousin of Mrs. W. H. Vandenburg Jr., and Mrs. Herman Oeltchits of New York, returned from their honeymoon next week, the seven-year-old son of McQuoid will be waiting to enter their household as his future home.

Judge J. V. Van Nestland modified the final decree of divorce obtained by Mrs. Ethel McQuoid, 19, transferring the custody of the boy from his mother to the father.

So little Jack Edward McQuoid Monday next will leave the home of his parents at Santa Cruz. Mrs. McQuoid will visit the boy on reasonable times but she cannot take him away from his new home.

The judgment ends a long struggle between husband and former wife.

In the trial concerning custody, it was introduced by the husband, through his counsel James P. Sweeney, to show that Mrs. McQuoid was not fit to have the care of her son. The name of the son was given at the time of the divorce.

At the time of the hearing, Jack, then the witness stand and told of what he had witnessed in his mother's home while Jacob was there.

Jack, during the trial was in the custody of his father. At the end of the hearing, McQuoid refused to leave the courtroom without taking the boy with her. McQuoid opposed his son going with his mother and there was a scene between husband and wife.

## CHICAGO FIRM TAKES \$50,000 OAKLAND LEASE

Another point indication of the unusual interest that outside merchants are displaying in Oakland and of their faith in the growth of the city is seen in the lease just negotiated by Herman Rittig, leasing manager of Laymen Real Estate Co. of the store on the Southwest corner of Eleventh and Broadway for Mrs. Florence E. Wells, owner, to the Dundee Woollen Mills Co., Inc., a large Chicago corporation. The lease is for a period of five years at gross rental understood to be about \$50,000.

## OAKLAND WOMAN IS DIVORCE COMPLAINTANT

SAN FRANCISCO, Sept. 30.—The trial of the divorce suit brought by Jane C. Day against William Peyton Day, member of a well-known engineering firm of Los Angeles and San Francisco, commenced today in the Superior Court. Mrs. Day, who lives at 335 Eleventh street, Oakland, makes general allegations of cruelty against her husband and a number of letters written between them during their various domestic misadventures were introduced in evidence.

## U.S. LINER KOREA LOSES ANCHOR OFF QUARANTINE

SAN FRANCISCO, Sept. 30.—When the liner Korea from Hongkong and way ports dropped anchor off quarantine this morning the mud hook slipped into the brine permanent rest. With snap, the gave way and the anchor, together thirty fathoms of chain, went to bottom of the bay. The vessel proceeded to her birth where she birthed at m.

## N.Y. YORK TEAM TO BEGIN TRAINING

NEW YORK, Sept. 30.—In the first of a three-game series here today with the Philadelphia team, the New York Nationals will begin training for the post-season world's championship games. Few of those eligible for the world's series will be seen in action, however, as most are engaged for the season. McCraw is placing great reliance in Marquard, Tarsian and Mathewson to outperform Stahl in the finer points of the game at the crucial stages.

## PHILADELPHIA CRICKET TEAM IS WINNER

PHILADELPHIA, Sept. 30.—The gentry of Philadelphia won the cricket match with the Australians here today by the narrow margin of two runs. The Australians needed 138 runs in their second innings to win and with the score at 135 the visitors last batsman was clean bowled by J. B. King. Total score for two innings: 255; Australians 257.

## GOVERNOR OF FOO CHOW ASKS FOR MORE TROOPS

AMOY, China, Sept. 30.—The lawless element of the population of the province of Foo Kien has become so powerful that the troops at the disposal of the authorities are unable to cope with the situation. According to reports from Foo Chow, the governor of the province has requested reinforcements from the army stationed in the north.

## MARSHALL DENIES ROOSEVELT'S CHARGES

BOSTON, Sept. 30.—Governor Marshall who arrived here today in commenting upon the charge of Col. Roosevelt that the Governor was a representative of Tarrant, said: "I am not the man that locked horns with Tarrant over the senatorship two years ago and defeated him." "I added Governor Marshall, "I felt it necessary to keep out of the contest, as all the candidates had supported me."

## SEEK NOMINATION OF W. J. CARR AS SENATOR

SACRAMENTO, Sept. 30.—A petition containing 12,500 signatures had been received in the office of Sen. Frank J. Boggs, placing W. J. Carr of Los Angeles in nomination for State Senator from the 18th district, succeeding State Senator C. W. Bell who resigned several months ago because of having received the nomination to Congress from the Ninth district.

## STRAPPED MULE TO RAILROAD TRACK

SACRAMENTO, Sept. 30.—Acting Governor Wallace today granted the regulation of the Governor of Louisiana for the return of a mule wanted in that state for straining a mule railroad track for the purpose of wrecking a train. The mule is Lince Sparach, now held in Los Angeles.

**STANFORD CHARGE  
ANGERS BERKELEY**

Adoption of Sombrero Brings  
About College Tempest  
In Teapot.

UNIVERSITY OF CALIFORNIA,  
Sept. 30.—Members of the senior class  
of the University of California are  
indignant at the charge by Stanford  
that California plagiarized a Stanford  
custom when the old student plug was  
discarded and officially buried in favor  
of the sombrero as a distinctive badge  
of the senior.

For years it has been a custom of  
Stanford for senior men to wear the  
sombrero. All other classes were  
bidden to wear this type. On the  
Berkeley campus the beret plug was  
for years a senior emblem, but when  
the plug was declared dead, and buried,  
and the class adopted the sombrero.  
Then came the charge of plagiarizing.

"Stanford argues itself unversed in  
college customs," said Claire Morse  
Torrey of the Associated Students of  
California. "It is a well-known fact  
that many of the eastern universities  
have adopted the sombrero as a senior  
hat and were wearing it long before  
our neighboring college was ever  
founded. It is merely another one of  
those absurd Stanford stories which  
follow every move made at Califor-

nia.

Similar statements are made by  
other prominent members of the senior  
class at Berkeley. John L. Simpson,  
editor of the "Daily Californian,"  
the student newspaper, said:

"When the present senior class  
abandoned the unsightly plug and  
adopted the sombrero it is certain that  
the Stanford custom was never  
thought of. To assert that we copied  
their idea is ridiculous."

R. A. Silcox, chairman of the rally  
committee at California, who was one  
of the leaders in the movement to  
adopt the sombrero and is one of the  
biggest men at the university, in  
speaking of the Stanford charge,

"The thing is too ridiculous to war-  
rant comment of any kind," he said.

farewell tomorrow, going to Trenton  
for a day with state officials and then  
to Princeton to take up the campaign  
from his study fireside there.

**COMBINE AGAINST TURKEY.**

LONDON, Sept. 30.—A convention  
between Greece, Montenegro, Serbia  
and Bulgaria for joint action against  
Turkey, according to the Sofia cor-  
respondent of the Times, is regarded  
as a fait accompli.

**PAROLED LOOTER  
IS COUNTERFEITER**

Second Crime Fastened on  
Man Who Stole From  
Assay Office.

SEATTLE, Sept. 30.—George Edward  
Adams, the paroled looter of the Seattle  
Assay Office, and John G. Webber, a 70-  
year-old ex-convict, said to have a rec-  
ord as a counterfeiter, were arrested yes-  
terday in a lonely cabin three miles north-  
east of Kent by secret service operatives.  
Both men were brought to the city jail,  
where they are held pending the filing  
of a formal complaint, in which the de-  
tectives will charge them with conspiring  
to engage in counterfeiting.

Adams, who while usher of the assay  
office, abstracted \$200,000 from the gold  
dust deposited by Alaska and Yukon  
miners, was paroled from McNeil Island  
Penitentiary May 1, after he had served  
five and a half years of a ten-year sen-  
tence for his crime. Adams was con-  
sidered a model prisoner, and upon his  
release obtained employment as book-  
keeper for a large automobile company  
in Seattle and was believed to be leading  
an exemplary life.

Webber was released from the same  
prison August 9, where he had served the  
major part of an eight-year sentence im-  
posed for counterfeiting. As soon as

Webber was released Secret Service Agent  
Thomas E. Foster assigned a detective to  
watch Webber, believing he would return  
to his former practice.

Webber was found living in the cabin  
near Kent, where he posed as a herb doc-  
tor and astrologer. The operative kept close  
tab on Webber and was amazed to find  
that he was in frequent communication  
with Adams. Foster and his associates  
went to the cabin yesterday and over-  
heard Webber and Adams in consultation.  
Bursting into the building, the secret ser-  
vice men arrested Adams and Webber and  
confiscated some implements said to be  
part of the counterfeiters' equipment.  
According to Foster, Adams virtually  
confessed that he and Webber were pre-  
paring to engage in counterfeiting.

**MUSICAL COMEDY  
ORPHEUM FEATURE**

"The Antique Girl" Has Much  
to Attract Critical  
Audiences.

LASKEY has sent a lively offering to  
the Oakland Orpheum this week, "The  
Antique Girl," being that sort of tab-  
loid musical comedy that keeps the  
eyes busy and the ear at work. Music  
a-plenty is in the act and there is  
some sort of a plot. Also present are  
pretty girls and a comedian, to say  
nothing of chorus men and scenes.

"The Antique Girl" concerns itself  
with a rare vase that has a habit of  
singing when it is coaxed. One girl  
reporter and one-twelfth of a dozen  
handsome men get a notion that the  
thing is fake and resolve to dis-  
cover the worth of their reasoning.  
Sally Clarkson, ward of the antique  
shop's proprietor, gets wind of the plot  
and decides on a counter conspiracy.  
Anyway, she owes one to the young  
man whose love for her has swindled  
the price of the vase in the vase.

When the law reporter and the  
young man with the chorus visit the  
shop at night and attack the vase  
with an ax, they discover Miss Sally  
dressed as no girl has been since the  
days when Greece made history and  
vases.

Whereupon the thing comes to an  
end in a burst of song and color.  
Everybody does well, looks well and  
sings as well as is expected of the  
act. While not of the caliber and orig-  
inality of his Planophoniads, Lasky's  
"Antique Girl" is of the better class  
of tabloid musical comedy.

**DEIRO RETURNS.**

Deiro, who pumps a good grade of  
music out of an accordian, all the  
while rolling his eyes and mussing his  
hair, returns for a short visit.

Deiro is somewhat of a musician  
and interprets classics with rare skill.  
He has, among other things, a per-  
sonality that "goes big" with the gal-  
lery and gets over downstairs. His  
popularity is another asset that makes  
him valuable as a vaudeville attraction.

McIntyre and Harty, the one a  
dainty bit of femininity, the other fat  
and lively, are tagged "the sugar-  
plum girls" and the "marshmallow  
boy." Their mission is to warble  
and spread joy about and they suc-  
ceed up to expectation.

"A Night in Chinatown" is what  
Herbert Ashley and his company  
one call their twenty minutes but it  
is really funnier than that. Lowe and  
De Vere get over a lot of ground in a  
clever manner and prove to your satis-  
faction that their feet are as rest-  
less as billy-goats.

Bertish has a better sort of an  
attractive act, using apparatus and bar-  
ring that display of muscles that is  
offensive most of the time. The Won-  
der Kettle burns ice, fries steak on  
the same kind of material and does  
other wonderful things. The Gordon  
Brothers box with a punching bag and  
with "Bob," a kangaroo. Bob has all  
the best of it.

**DIGS UP TREASURE  
BURIED BY BANDIT**

A Mexican Banker Finds  
\$75,000; Loot Buried  
Years Ago.

SAN JOSE, Sept. 30.—Vasquez, or some  
other of the lawless bandits who infested  
the southern end of Santa Clara and San  
Benito counties sixty years ago, buried  
thousands of dollars' worth of treasure  
which they stole from miners and others  
along El Camino Real. Of this treasure  
\$75,000 has just been recovered by a Mex-  
ican banker from Ensenada, Sonora, Mex-  
ico, according to a story which was made  
public at Hollister yesterday through  
William Rogers, a cowboy, who acted as  
guide for the Mexican party which found  
the treasure.

Rogers was unable to learn the name  
of the Mexican banker, but succeeded in  
getting his address. The treasure seeker  
was accompanied by two Mexican laborers,  
neither of whom understood English. He  
was equipped with a full camping outfit  
and, more important, a map of southern  
San Benito county, which was found true  
in every detail. The cowboy took the  
party first to Bitterwater valley, where  
camp was pitched. The map showed the  
Hespéridian peak and both Bitterwater and  
Hernandez valleys, and showed that the  
treasure was located about three miles  
from the peak, in a depression on one  
of the ridges between the valleys.

Rogers and the Mexicans dug up the  
treasure, which was buried at the foot  
of an oak tree and about eight feet  
beneath the surface of the ground. A heavy  
iron casket bound with iron hoops and  
slightly the worst for the action of the  
damp ground in which it was buried, con-  
tained silver bullion worth about \$10,000  
and gold ingots said to be valued in the  
neighborhood of \$55,000. Rogers was paid  
like a prince for his work in United States  
coins by the Mexican.

The loan made to Casey, amounting to  
\$18,000, was on a lot on High street  
in Palo Alto, used by the Duffield Lumber  
company. Duffield does not know  
who Casey is, and has been under the  
impression that the paper boy belongs to  
the Palo Alto Rent and Loan Associa-  
tion, to whom the lot is leased.

The lot is now estimated to be worth  
\$50,000.

**BLACK'S SERVICES NEEDED.**

In regard to the prosecution of Black,  
Professor J. Griffith said:

"We are not trying to protect the  
black, we are looking for any evidence  
without the knowledge of the directors."  
A loan of \$5000 had been authorized  
to this "Casey," he said. "The direc-  
tors authorized it on Black's recom-  
mendation."

Then Black raised the amount to  
\$18,000. In another instance Black  
borrowed \$5000 from a Palo Alto bank  
for the association. This loan should not  
have been made by the bank or received  
by Black without the authority of the  
board of directors."

**NO SECURITY ON HAND.**

The figures of the report show that  
Black had no model up of several different  
items, not covered by any documents,  
without the knowledge of the directors.

"A loan of \$5000 had been authorized  
to this 'Casey,'" he said. "The direc-  
tors authorized it on Black's recom-  
mendation."

Then Black raised the amount to  
\$18,000. In another instance Black  
borrowed \$5000 from a Palo Alto bank  
for the association. This loan should not  
have been made by the bank or received  
by Black without the authority of the  
board of directors."

**BODIES OF MURDER  
VICTIMS IN FIRE RUIN**

QUINCY, Ill., Sept. 30.—Mystery sur-  
rounds the death of C. A. Pfanzschmidt, 47  
years old, his wife, aged 45, and their  
15-year-old daughter, Blanche, and Mrs.  
Emma Kaempen, aged 24, whose charred  
bodies were found yesterday morning, be-  
tween 1 and 2 o'clock, after their home  
had burned.

The residence is on a farm, two miles  
from Payson. Indications point to mur-  
der and robbery, and the burning of the  
house to cover up the crime.

Miss Kaempen was a resident of Quincy,  
but at the Pfanzschmidt home while  
teaching school nearby.

The house was nearly destroyed when  
farmers arrived on the scene. The re-  
mains of Pfanzschmidt and his wife were

found in the cellar, directly below the  
room in which they slept, and only the  
skull and a few bones of Miss Kaempen  
remained among the ruins. Nothing was  
found of the daughter, Blanche.

**CORRESPONDENT DIES.**

PHILADELPHIA, Sept. 30.—Ma-

ior John M. Carson, a widely known

newspaper correspondent, died here today from a complication

of diseases. Major Carson was one of

the founders and the first president of

the Gridiron club of Washington. Dur-

ing his career in Washington he was
